| Application Fee        | • Some of the clinical certificate programs use Postdoctoral Dental Matching Program (Match), and/or Postdoctoral Application Support Service (PASS). Applications made for the basic science MS or PhD in Oral Biology must be made through ApplyTexas. Any application fees charged by these services must be paid at the time of application.  
  • If a clinical certificate program uses a College of Dentistry application, a $35 non-refundable fee is due for first-time applicants. The fee to reapply is $25. |
| Previous Degree        | • Requirements vary for specific graduate programs.  
  • Official transcripts of all undergraduate and graduate work from all previously attended institutions. |
| Nationally Scored Test (GRE/ADAT) | • All applicants (Certificate, MS, PhD, or combined MS/Certificate) must provide acceptable scores on the GRE or ADAT (see program for additional information). |
| English Language Requirements | English proficiency verification can be achieved by presenting:  
  • TOEFL score of at least 80 on TOEFL iBT (550 paper-based), or  
  • an IELTS score of at least 6.0, or  
  • a GRE Verbal Reasoning score of at least 146 (400 on the old scale), or  
  • GMAT Verbal score of at least 22, or  
  • a PTE Academic score of at least 53, or  
  • acquiring alternative verification from the Office of Graduate and Professional Studies via a departmental request (an international student holding an advanced degree from an accredited US institution qualifies for alternative verification). |
| Foreign Degree Transcripts | • All foreign transcripts must be evaluated by Educational Credential Evaluators (ECE). |
| Other Requirements     | • Approval for admission from the Program Admissions Committee and the Associate Dean for Research and Graduate Studies. |

| Application Fee        | • Texas Medical and Dental Schools Application Service (TMDSAS)  
  • $150 flat fee (for one or all three Texas dental schools)  
  • For non-Texas residents: ADEA American Association of Dental Schools Application Service (AADSAS)  
  • $245 for the first dental school and $98 for each additional dental school  
  • College of Dentistry Secondary Application for non-Texas residents only  
  • $50 non-refundable fee |
| Previous Degree        | • Not required but current competitive level dictates BA or BS from accredited college or university prior to matriculation  
  • Official transcript of all undergraduate and graduate work from previously attended institutions. |
| Undergraduate Cumulative GPA | Completion of required courses with GPA as high as possible (90 SCHs minimum; BA or BS degree recommended); admission is competitive |
| Dental Admission Test (DAT) | Official scores required |
| International Requirements | • At least 90 SCHs from a fully accredited college or university in the U.S. or its territories including specific subject requirements  
  • Degree preferred |
| Other Requirements     | Letter of recommendation (LOR) from practicing dentist, health professional advisor or committee; also interview; comprehensive biographical sketch; observation of a general dentist; and community service experiences |

Taking the Dental Admission Test (DAT)

The applicant should take the DAT in the spring or summer prior to applying. The DAT is offered at Prometric Testing Centers with locations throughout the country. The DAT is administered on computer almost every day of the week. An applicant with below average scores on the test may wish to retake the test in order to become more competitive. A 90-day waiting period is required before re-testing.

Other resources include the Dental Admissions Testing Program (http://www.ada.org/en/education-careers/dental-admission-test).

Application Procedures

The college participates in the Texas Medical and Dental Schools Application Service (TMDSAS). This central processing service allows the applicant to apply to any or all of the three dental schools in the State of Texas by applying through the TMDSAS.
The grade point average (GPA) and the Dental Admission Test (DAT) are the primary factors used in this evaluation. The interview with the Admissions Committee gives the opportunity for evaluation of noncognitive factors. Preference is given to residents of Texas and the surrounding states that do not have a college of dentistry. Consideration of any factors that may have impacted academic or personal history is important in interview selection and final acceptance decisions. Consideration is also given to how the student may contribute to the diversity of the class. Additionally, applicants seeking to enter the dental school must be able to perform the essential functions required to complete the curriculum successfully.

### Improving Chances for Admission

The application for admission to the College of Dentistry may be strengthened by the following:

- keep the GPA as high as possible
- make above average scores in all areas of the DAT
- upper-division biological science courses similar to those taken by the first-year dental students
- give careful attention to details in filing the application - apply early
- assure your personal statement explains your motivation for pursuing dentistry, including personal and academic achievements, hardships overcome and other factors that affected personal or academic progress
- observation in a general practice dental office is required
- participate in activities to improve manual dexterity and imaginative, creative ability
- take advantage of opportunities for community service
- evaluate and be able to articulate your skills, abilities, attitudes, etc., to determine if you are motivated to make the commitment required for a career in dentistry

### Comprehensive Review of Application

A comprehensive (whole-file review) of the application is performed to reveal characteristics critical to the practice of dentistry, factors that indicate success in the dental curriculum that are not evident from academic history or standardized test performance and potential for future contributions to the dental profession. They include:

- motivation to pursue a career in dentistry
- involvement in community service
- observation or involvement in a dental office or clinic
- involvement in a summer pre-dental preparatory program
- letters of evaluation
- communication capabilities including writing (as evidenced in personal statement) and conversational English proficiency
- the applicant’s ability to contribute to the diversity of the class including their race or ethnicity, socioeconomic background, talents, life skills and experiences and special attributes
- region in Texas in which applicant resides
- residence in a Texas county designated as underserved by dental health professionals
- employment while attending college
- preparation to attend and succeed in post-secondary education
- parents’ educational background
- applicant is first college attendee in his/her immediate family
- history of extreme hardship
• leadership positions held in societies or organizations
• evidence of diverse cultural experience
• multilingual capabilities

**Becoming More Competitive as a Re-applicant**

• All re-applicants must be enrolled in coursework to be considered as a competitive candidate. We recommend taking post-baccalaureate coursework in the biological sciences to further prepare for the dental school curriculum, keep current with study skills and prove to the Admissions Committee the applicant’s motivation and preparedness (for example: anatomy, physiology, biochemistry II, microbiology, histology, neuroscience, cell and molecular biology, immunology).

• Re-applicants need to critically review their applications for areas that may need further work: biological science coursework, DAT scores, GPA, community service and volunteer work, and general dental office shadowing experience.

• Re-applicants should continue to participate in shadowing and ongoing volunteer activities during the application cycle.

• Re-applicants who follow this advice to improve their academic background and general application will be more competitive than those with little change from year to year.

• Working in a dental office alone will not improve the applicant’s competitiveness.

**More Information**

For up to date information, please go to the College of Dentistry website (https://dentistry.tamhsc.edu). Select the section on Questions and Answers About Admissions to quickly access updated information and resources to further your knowledge of the admissions process. Go directly to Procedure for Application if you need specific directions on how to apply. To aid in planning and as a gauge for how you may compare to the “average” entering student, access the statistics in the snapshots of the recent entering classes.

Texas residents MUST apply through the Texas Medical and Dental Schools Application Service (TMDSAS). To access the full information and the online application, please visit TMDSAS (http://www.tmdsas.com).

Out-of-state applicants have three options. They may apply through the TMDSAS, through the American Association of Dental Schools Application Service (AADSAS), or with the application packet (https://dentistry.tamhsc.edu/admissions/applications.html).

**Please note:** Out-of-state applicants who apply through the American Association of Dental Schools Application Service (AADSAS) MUST also submit the College of Dentistry application.

If you have further questions, you may contact the Office of Recruitment and Admissions by email at admissions-dentistry@tamhsc.edu or by telephone at (214) 828-8231.
