PROS - PROSTHODONTICS

PROS 600 Mock Board Examination I
Credits 0.0 Other Hours.
Prepares the students for certification by the American Board of Prosthodontics (ABP). It includes a comprehensive written examination, presentation and defense of a Part 4 patient presentation with oral examination. Must be taken on a satisfactory/unsatisfactory basis.

PROS 601 Mock Board Examination II
Credits 0.0 Other Hours.
A continuation of (I), preparing students for certification by the American Board of Prosthodontics (ABP) with a comprehensive written examination, presentation and defense of a Part 2 or 3 patient presentation with oral examination. Must be taken on a satisfactory/unsatisfactory basis.

PROS 602 Mock Board Examination III
Credits 0.0 Other Hours.
A continuation of (I) and (II), preparing students for certification by American Board of Prosthodontics (ABP) with a comprehensive written examination and presentation and defense of a Part 2 or 3 patient presentation not yet presented with oral examination. Selection is also made of which Part 2, 3 or 4 should possibly be considered for actual presentation to the ABP. Students are required to take Part 1 (written) of the ABP examination in February of their third year. Must be taken on a satisfactory/unsatisfactory basis.

PROS 603 Journal Club I
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 604 Journal Club II
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 605 Journal Club III
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 606 Journal Club IV
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 607 Journal Club V
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 608 Journal Club VI
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 609 Journal Club VII
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 610 Journal Club VIII
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 611 Journal Club IX
Credits 0.0 Other Hours.
Reviews current prosthodontic literature and encompasses analytical review and evidence-based approach. Students register for a total of three summers and six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 612 Treatment Planning and Clinical Review I
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 613 Treatment Planning and Clinical Review II
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 614 Treatment Planning and Clinical Review III
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 615 Treatment Planning and Clinical Review IV
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.
Must be taken on a satisfactory/unsatisfactory basis.

PROS 617 Treatment Planning and Clinical Review VI
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 618 Treatment Planning and Clinical Review VII
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 619 Treatment Planning and Clinical Review VIII
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 620 Treatment Planning and Clinical Review IX
Credits 0.0 Other Hours.
A series of formalized treatment plans are presented by the students and are discussed and finalized by attending faculty and students. Students also present treatments in progress and completed treatments for review and discussion at this seminar. Students register for a total of three summers and six semesters.

PROS 621 Interdisciplinary Conferences I
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 622 Interdisciplinary Conferences II
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 623 Interdisciplinary Conferences III
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 624 Interdisciplinary Conferences IV
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 625 Interdisciplinary Conferences V
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 626 Interdisciplinary Conferences VI
Credits 0.0 Other Hours.
Specialized conferences in orthognathic surgery, craniofacial anomalies and dental implants are held weekly and monthly. The specialties of prosthodontics, periodontics, oral and maxillofacial surgery, and orthodontics attend with interdisciplinary treatment planning, presentation of treatment results, and future direction based on outcomes and new developments. Students register for six semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 627 Prosthodontic Topic Literature Review I
Credits 0.5-1.0 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 628 Prosthodontic Topic Literature Review II
Credits 0.5-1.0 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.
PROS 629 Prosthodontic Topic Literature Review III
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 630 Prosthodontic Topic Literature Review IV
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 631 Prosthodontic Topic Literature Review V
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 632 Prosthodontic Topic Literature Review VI
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 633 Prosthodontic Topic Literature Review VII
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 634 Prosthodontic Topic Literature Review VIII
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 635 Prosthodontic Topic Literature Review IX
Credits 0.5-1. 0.5-1 Other Hours.
5-1. Detailed review of classical and current prosthodontic literature organized into specific topics, encompassing all sub-disciplines in prosthodontics. Students are assigned a specific topic, upgrade past literature packets, prepare and disseminate new material and summaries prior to the seminar, and lead discussion at the seminar. Students register for a total of three summers and six semesters.

PROS 636 Advanced Prosthodontic Concepts and Techniques I
Credit 1. 1 Other Hour.
Theories, concepts and treatment modalities in complete denture, removable partial denture and fixed partial denture prosthodontics, with related contemporary literature and techniques. Students register for a total of two semesters.

PROS 637 Advanced Prosthodontic Concepts and Techniques II
Credit 1. 1 Other Hour.
Theories, concepts and treatment modalities in complete denture, removable partial denture and fixed partial denture prosthodontics, with related contemporary literature and techniques. Students register for a total of two semesters.

PROS 638 Related Discipline Seminars I
Credit 1. 1 Other Hour.
Interactive seminar presentations in the specialty areas of periodontics, oral and maxillofacial surgery, orthodontics, endodontics, dental materials, physiology and other disciplines not covered in the core curriculum specifically related to prosthodontics. Students register for a total of four semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 639 Related Discipline Seminars II
Credit 1. 1 Other Hour.
Interactive seminar presentations in the specialty areas of periodontics, oral and maxillofacial surgery, orthodontics, endodontics, dental materials, physiology and other disciplines not covered in the core curriculum specifically related to prosthodontics. Students register for a total of four semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 640 Related Discipline Seminars III
Credit 1. 1 Other Hour.
Interactive seminar presentations in the specialty areas of periodontics, oral and maxillofacial surgery, orthodontics, endodontics, dental materials, physiology and other disciplines not covered in the core curriculum specifically related to prosthodontics. Students register for a total of four semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 641 Related Discipline Seminars IV
Credit 1. 1 Other Hour.
Interactive seminar presentations in the specialty areas of periodontics, oral and maxillofacial surgery, orthodontics, endodontics, dental materials, physiology and other disciplines not covered in the core curriculum specifically related to prosthodontics. Students register for a total of four semesters. Must be taken on a satisfactory/unsatisfactory basis.

PROS 642 Advanced TMD and Occlusal Concepts and Treatments
Credit 1.5. 1.5 Other Hour.
Seminars and clinical application of contemporary literature and techniques in occlusion and tempomandibular disorders.

PROS 643 Clinical Teaching
Credit 1. 1 Other Hour.
Lectures and clinical instruction involving contact with second-year, third-year and fourth-year dental students. Students register for one semester. Must be taken on a satisfactory/unsatisfactory basis.
PROS 644 Maxillofacial Prosthodontic Concepts and Treatments  
Credit 1. 1 Other Hour.  
Theories, concepts and treatment modalities related to the maxillofacial  
patient with a seminar, laboratory and clinical application format and a  
VA hospital rotation. Implant literature reviews of contemporary material  
with an evidence-based seminar approach.

PROS 645 Advanced Implant Concepts and Treatment  
Credit 1.5. 1.5 Other Hour.  
Seminars and clinical application on implant concepts, designs,  
placement techniques and clinical utilization. Specific prosthodontic  
diagnosis and treatment concepts are stressed with evidence-based  
rationale.

PROS 646 Introduction to Prosthodontic Concepts and Techniques  
Credits 2.5. 1.3 Lecture Hour. 1.3 Lab Hour.  
(1.25-1.25). Assessment, development and enhancement of diagnostic  
and clinical skills in prosthodontics; lecture/laboratory format, concepts  
in fixed, removable and implant prosthodontics, porcelain laboratory  
techniques and applications.

PROS 647 Advanced Dental Materials  
Credits 2. 2 Lecture Hours.  
Provides knowledge on contemporary dental materials; emphasis on  
restorative and prosthodontic materials; understanding and overview  
of the structure and properties of dental materials; specific detailed  
information on the major categories of dental materials.

PROS 648 Occlusal Concepts and Techniques I  
Credit 1.5. 1.5 Other Hour.  
Theories and clinical application of various occlusal concepts with  
utilization of various categories of recording mechanisms of condylar  
movements. Students register for a total of two semesters.

PROS 649 Occlusal Concepts and Techniques II  
Credit 1.5. 1.5 Other Hour.  
Theories and clinical application of various occlusal concepts with  
utilization of various categories of recording mechanisms of condylar  
movements. Students register for a total of two semesters.

PROS 650 Geriatric Prosthodontics  
Credit 1. 1 Other Hour.  
Seminars and clinical applications on the demographics epidemiology  
and special considerations of the aging patient in a prosthodontic  
practice. Clinic rotations in geriatric evaluation and management  
unit team meetings and nursing home rounds. Must be taken on a  
satisfactory/unsatisfactory basis.

PROS 651 Implant Concepts and Techniques, Surgical Placement  
Credits 0. 0 Other Hours.  
Seminars and clinical application of basic implant concepts, diagnosis  
and treatment planning and the SAC classification, review of various  
systems, surgical placement considerations and evidence-based  
rationale; for advanced specialty education students desiring to place  
implants in the Post-Doctoral Implant Surgical Placement Program. Must  
take on a satisfactory/unsatisfactory basis.

PROS 652 Clinical Prosthodontics I  
Credits 3. 3 Other Hours.  
Diagnosis, treatment and management of patients requiring various  
categories of prosthodontic care. Patient selection and load determined  
by student aptitude and clinical competence.

PROS 653 Clinical Prosthodontics II  
Credits 3. 3 Other Hours.  
Diagnosis, treatment and management of patients requiring various  
categories of prosthodontic core. Patient selection and load determined  
by student aptitude and clinical competence.

PROS 654 Advanced Clinical Prosthodontics I  
Credits 2.50 to 4. 2.50 to 4 Other Hours.  
5-4. Diagnosis, treatment and management of patients requiring  
various categories of complex prosthodontic care. Interspecialty  
relationships are stressed with students developing proficiency in  
treatment applications. A VA hospital rotation is included for a one-

PROS 655 Advanced Clinical Prosthodontics II  
Credits 2.50 to 4. 2.50 to 4 Other Hours.  
5-4. Diagnosis, treatment and management of patients requiring  
various categories of complex prosthodontic care. Interspecialty  
relationships are stressed with students developing proficiency in  
treatment applications. A VA hospital rotation is included for a one-

PROS 656 Advanced Clinical Prosthodontics III  
Credits 2.50 to 4. 2.50 to 4 Other Hours.  
5-4. Diagnosis, treatment and management of patients requiring  
various categories of complex prosthodontic care. Interspecialty  
relationships are stressed with students developing proficiency in  
treatment applications. A VA hospital rotation is included for a one-

PROS 657 Advanced Clinical Prosthodontics IV  
Credits 2.50 to 5. 2.50 to 5 Other Hours.  
5-5. A continuation of PRO 5402, with students diagnosing, treating and  
managing patients requiring various categories of complex prosthodontic  
care. Rationale and outcomes of treatment are stressed, with developing  
a high level of proficiency in treatment applications.

PROS 658 Advanced Clinical Prosthodontics V  
Credits 2.50 to 5. 2.50 to 5 Other Hours.  
5-5. A continuation of PRO 5402, with students diagnosing, treating and  
managing patients requiring various categories of complex prosthodontic  
care. Rationale and outcomes of treatment are stressed, with developing  
a high level of proficiency in treatment applications.

PROS 659 Advanced Clinical Prosthodontics VI  
Credits 2.50 to 5. 2.50 to 5 Other Hours.  
5-5. A continuation of PRO 5402, with students diagnosing, treating and  
managing patients requiring various categories of complex prosthodontic  
care. Rationale and outcomes of treatment are stressed, with developing  
a high level of proficiency in treatment applications.

PROS 689 Special Topics In...  
Credits 0 to 4. 0 to 4 Other Hours.  
Selected topics in an identified area of prosthodontics. May be repeated  
for credit.
PROS 691 Research
Credits 0 to 10. 0 to 10 Other Hours.
Research for thesis or dissertation.
