Graduate Faculty Overview

The Graduate Faculty at Texas A&M University consists of the President, the Provost and Executive Vice President, the Associate Provosts, the Deans of all subject-matter colleges, selected Directors, and properly qualified academic groups.

This document presents University policies and practices which Department Heads, Deans, and Intercollegiate faculties should follow in nominating members to the Graduate Committee Faculty of Texas A&M University for participation on graduate student advisory committees. This document also discusses the various roles of Graduate Committee Faculty and describes the credentialing requirements for the Graduate Teaching Faculty. Departments, intercollegiate faculties, and colleges may require additional prerequisites for individuals seeking an appointment to the Graduate Committee Faculty. Additional requirements are subject to review and approval by the Associate Provost for Graduate and Professional Studies.

The Graduate Committee Faculty Nomination form is accessed by logging into http://gradcom.tamu.edu. For questions regarding access to the Graduate Committee Faculty Nomination site please contact the GradCom Administrator at gradcom@tamu.edu. The form should be completed in its entirety and the appropriate documents uploaded. Once complete, the nomination will be submitted for approval through the workflow.

Only those who are authorized to sign and submit graduate documents have been given access to the Graduate Committee Faculty Nomination system.
Graduate Teaching Faculty

According to SACS guidelines, faculty teaching graduate and post-baccalaureate course work should have an earned doctorate or terminal degree in the teaching discipline or a related discipline. Other credentials that may be considered include possessing a master’s degree or at least 18 semester credit hours of graduate-level coursework in the same or closely related field; professional licensure or certification in a related field or profession, or significant professional, research or teaching experience in the same or closely related field. Faculty members meeting these credentialing requirements are automatically members of the Graduate Teaching Faculty.

The office of the dean of faculties assumes responsibility for verifying the teaching qualifications for faculty. Colleges and departments oversee hiring of graduate assistants who serve as instructors of record for undergraduate courses. The guidelines for all instructional faculty, including graduate teaching assistants, who are instructors of record for graduate and undergraduate courses at Texas A&M University and its two branch campuses, Texas A&M University Galveston campus and Texas A&M University Qatar campus are available at:

In addition to meeting the credentialing requirements for teaching graduate courses, faculty teaching research courses such as 691 and other designated courses must also be members of the Graduate Committee Faculty.

Graduate Committee Faculty

Appointees to the Graduate Committee Faculty participate in the graduate degree programs of the University by serving on graduate student advisory committees.

Members of the Graduate Committee Faculty are selected from qualified individuals of the faculty and professional staff of Texas A&M University; from employees of Texas A&M University System agencies such as Texas A&M AgriLife Research, Texas A&M Forest Service, Texas A&M AgriLife Extension, TEES, TTI; from employees of affiliated research organizations (such as USDA) located near Texas A&M campus sites, and from affiliated hospitals and clinical organizations.

Nomination for membership on the Graduate Committee Faculty is always initiated by the head of the appropriate academic department, intercollegiate faculty, or dean of college (under special circumstances) of Texas A&M University and is processed as discussed in the following sections.

Appointment to membership on the Graduate Committee Faculty, while considered an honor, serves functional purposes as well. Appointment to membership is not for the sole purpose of conferring recognition upon an individual, but is designed to assure competence in the directing and advising of graduate students. Such competence is, in part, a function of experience and knowledge of operational procedures; it is also characterized by ability and motivation.

Membership on the Graduate Committee Faculty is maintained only by participating in graduate programs by directing or administering graduate work, by doing research and publishing, or by other direct and substantial contributions to the graduate programs of the University, such as through service on a Graduate Instruction Committee or with administrative assignments in graduate education. A member of the graduate committee faculty may not serve on the graduate committee faculty of an academic program in which the member is pursuing a graduate degree or certificate. Individuals who have not been appointed to the Graduate Committee Faculty may not serve on student advisory committees unless special approval is granted by the Associate Provost for Graduate and Professional Studies.

The Graduate Council expects that all Deans, Department Heads and Chairs of Intercollegiate Faculty will regularly review the Graduate Committee Faculty under their direction and will recommend withdrawal of the appointments of any members who no longer merit membership on the Graduate Committee Faculty on the basis of their lack of contribution to graduate education. If the chair of a student’s advisory committee voluntarily leaves the University and the student is near completion of the degree and wants the chair to continue to serve in this role, the student is responsible for securing a current member of the University Graduate Committee Faculty, from the student’s academic program and located near the Texas A&M University campus site, to serve as the co-chair of the committee. The Department Head or Chair of intercollegiate faculty may request in writing to the Associate Provost for Graduate and Professional Studies that a faculty member who is on an approved leave of absence or has voluntarily separated from the university, be allowed to continue to serve in the role of chair of a student’s advisory committee without a co-chair for up to one year. The student should be near completion of the degree. Extensions beyond the one year period can be granted with additional approval of the Dean.

The Department Head or Chair of intercollegiate faculty shall notify any faculty member who is non-voluntarily removed from the roles of the Graduate Committee Faculty, and the faculty member has the right to appeal his/her removal through University Rule 12.99.99.M2 (Faculty Grievances Procedures).

The two categories of membership include: 1) Member, and 2) Special Appointment.

Members of Graduate Committee Faculty

A. Tenured and Tenure-Track TAMU Faculty

Tenured and Tenure-track (T/TT) faculty members of Texas A&M University are eligible to participate as members of the Graduate Committee Faculty under criteria and guidelines as established by each college or department. Also academic professional track faculty members employed by Texas A&M University Qatar campus (TAMUQ) with appropriate professorial rank (assistant professor, associate
professor, or professor) are eligible to participate as members of the Graduate Committee Faculty. The aforementioned faculty members may serve as chair, co-chair, or member of advisory committees of master’s and doctoral students.

Appointment of a T/TT faculty member is accomplished when a new hire is identified as graduate faculty in the Dean of Faculties hiring portal. The faculty member will be added only to the programs associated with the hiring department. Nominations of T/TT faculty members who are not adloc’d to a graduate degree-granting unit, to serve as chair or co-chair in a graduate degree-granting unit must come from the department head or chair of intercollegiate faculty for that graduate degree-granting unit. This is accomplished by submitting a Graduate Committee Faculty nomination through the Graduate Committee Faculty nomination website: http://gradcom.tamu.edu. The nominations will progress through a workflow system to receive the approval of the department head or chair of intercollegiate faculty for that graduate degree-granting unit. Appointment of an academic professional track faculty member employed by Texas A&M University Qatar campus (TAMUQ) with appropriate professorial rank (assistant professor, associate professor, or professor) is accomplished through use of the Graduate Committee Faculty nomination and letter from the TAMUQ Graduate Instruction Committee (the members of which shall be members of the Graduate Committee Faculty at TAMU) through the Dean/CAO of the TAMUQ campus and the appropriate administrative chain at TAMU.

B. Academic Professional Track Faculty and Professional Staff of TAMU, TAMUS Agencies, Affiliated research organizations, and Affiliated Hospitals and Clinical Organizations

An academic professional track faculty employed by TAMU, designated TAMUS agencies, or affiliated hospitals and clinical organizations is eligible to participate as a member of the Graduate Committee Faculty (if permitted by department or college guidelines), and may serve as chair, co-chair, or member of advisory committees of master’s and doctoral students with appropriate approval. Professional staff employed by TAMU, designated TAMUS agencies, or affiliated hospitals and clinical organizations are eligible to participate as a member of the Graduate Committee Faculty (if permitted by department or college guidelines), and may serve as co-chair or member of advisory committees of master’s and doctoral students with appropriate approval.

Appointments of these academic professional track individuals and professional staff are accomplished by submitting a Graduate Committee Faculty nomination through the Graduate Committee Faculty nomination website: http://gradcom.tamu.edu. The nominations will progress through a workflow system to obtain approvals from the appropriate department head or chair of intercollegiate faculty, Chair of the Graduate Instruction Committee and the College dean. The workflow will issue a letter request, initiated by the head of the academic department, dean of college, or chair of intercollegiate faculty, through the College Graduate Instruction Committee and the College Dean. The letter must provide evidence that the nominee meets the qualifications for the desired role(s).

Special Appointments

Situations may exist where the head of an academic department or chair of intercollegiate faculty wishes to have qualified individuals serve [such as, from another university, government or industry] on a student’s Advisory Committee without being permanent members on the Graduate Committee Faculty. An individual serving as a Special Appointment on a student’s Advisory Committee does not count toward the minimum number of Graduate Committee Faculty necessary to form the committee. Approved by the Faculty Senate on August 10, 2015

Intercollegiate Faculty

Texas A&M University has established the concept of an intercollegiate faculty with expressed goals of

1. fostering development and communication in disciplinary fields represented by faculty members in different departments and colleges,
2. utilizing faculty expertise in specific areas to strengthen emerging disciplinary programs and
3. overseeing the academic administration of graduate degree programs in a particular discipline.

To have access to an intercollegiate faculty’s degree programs, a graduate student must be admitted to that program and a member of that faculty must serve as chair or co-chair of the student’s advisory committee.

Intercollegiate faculties have been formed in agribusiness, biotechnology, engineering systems management, genetics, molecular and environmental plant sciences, neuroscience, toxicology, reproductive biology, and water management and hydrological science.

Texas A&M University System Graduate Faculty

The Texas A&M University System (TAMUS) has established a System Graduate Faculty which enables and facilitates collaborations among System institutions. Membership on the TAMUS Graduate Faculty provides students with access to faculty expertise throughout the System. Membership also creates an edge in recruiting top students into individual programs and helps provide recruiting opportunities with an intellectually, geographically and ethnically diverse pool of students. Members of the TAMUS Graduate Faculty are granted Associate Member status on the Texas A&M University Graduate Faculty. As a result, these faculty may serve on graduate advisory committees as a member or a co-chair (but not as chair) with a member of the Texas A&M University Graduate Faculty or they may teach a graduate course.

System Graduate Faculty Guidelines

1. Purpose. The Texas A&M University System Graduate Faculty has been developed for the following purposes:
   a. To facilitate participation in graduate education for a student in the A&M System.
   b. To provide a graduate student access to the expertise of faculty members throughout the System.
   c. To increase inter-institutional faculty collaboration throughout the A&M System.
   d. To promote the development of multi-disciplinary educational and research programs and the capacity to study complex scientific and social issues.

2. Membership Background
   a. Membership on the A&M System Graduate Faculty provides the opportunity to participate in graduate education at the A&M System universities through serving on graduate committees, advising a graduate student, and teaching graduate courses.
   b. Appointment to membership on the A&M System Graduate Faculty is designed to assure rigor in the directing, counseling, and teaching of a graduate student.
