Agricultural Economics - BS, Food Marketing Systems Option

The Bachelor of Science degree in Agricultural Economics offers students four options: Finance and Real Estate, Food Marketing Systems, Policy and Economic Analysis, and Rural Entrepreneurship. The course requirements for the freshman and sophomore years are the same for all Agricultural Economics options.

Requirements for graduation are listed in the Texas A&M University Student Rules and this catalog. With the exception of physical activity and general elective requirements, courses taken to satisfy degree requirements must be taken for letter grades.

The curriculum in Agricultural Economics is designed to train graduates for a wide variety of jobs in agriculturally-oriented business firms and agencies. Flexibility is included in the curriculum so that a student, in consultation with an academic advisor, can develop a degree program which best fits personal career objectives.

While not required on the degree plan, students are strongly encouraged to participate in internships (AGEC 484) to broaden their knowledge base and gain real-world experience to greater enhance employability after graduation. Students also have an opportunity to work one-on-one with a faculty member in a directed studies project. Directed studies projects (AGEC 485) enable students to receive additional instruction in areas of their career choice. To receive credit for AGEC 484 and/or AGEC 485 coursework, the student must meet the following requirements:

1. For Students who have completed between 30 and 59 hours total:
   a. have completed a minimum of 12 of those hours at Texas A&M;
   b. have completed AGEC 105, either ECON 202 or ECON 203, MATH 141, MATH 142, AGEC 217 and ACCT 209 or ACCT 229 (or their equivalents);
   c. have a minimum GPR of 2.75 (overall, in major, and in CBK classes if applicable); and
   d. obtain approval of the department head and supervising professor.

2. For students who have completed 60 or more hours, you must:
   a. have completed a minimum of 12 hours at Texas A&M;
   b. have completed AGEC 105, either ECON 202 or ECON 203, MATH 141, MATH 142, AGEC 217 and ACCT 229 or ACCT 229 (or their equivalents);
   c. have a minimum GPR of 2.5 (overall, in major, and in CBK classes if applicable); and
   d. obtain approval of the department head and supervising professor.

Note: Please see an advisor to determine where internship and/or directed studies credit may be used on your degree plan.

All sophomore (200) through senior (400) level agricultural economics courses have prerequisites which are strictly enforced. Prerequisites are shown in the agricultural economics course description portion of this catalog. You may also find a list of agricultural economics course prerequisites on our website (http://agecon.tamu.edu/undergraduate/current-students/curriculum/courses). Prerequisites are subject to change and students should review the prerequisite list on our website before registering each semester.

Food Marketing Systems Option

The Food Marketing Systems Option is designed to provide a well-founded basis in principles, concepts and methods for students interested in management, marketing, sales and related professional careers in the agricultural industry and/or related professions.
