

ENVIRONMENTAL SOIL SCIENCE - MINOR

The minor in Environmental Soil Science prepares agricultural majors for a career in industry, government, and non-government organizations that address environmental issues related to soil, soil science, and water quality.

The Department of Soil and Crop Sciences offers a minor in Environmental Soil Science. Additional career avenues include industry and agencies dealing with food, feed, fiber, greenspace, shelter, and bioenergy. Exposure to this academic discipline could lead students to the pursuit of advanced degrees and a career in the field of soil science or several related agricultural fields. See an advisor for more details.

Program Requirements

Code	Title	Semester Credit Hours
SCSC 301	Soil Science	4
Select from the following:		11
SCSC 309	Water in Soils and Plants	
SCSC 310	Soil Morphology and Interpretations	
SCSC 401/ FIVS 401	Forensic Soil Science	
SCSC 405	Soil and Water Microbiology	
SCSC 406	Soil and Water Microbiology Laboratory	
SCSC 422	Soil Fertility and Plant Nutrient Management	
SCSC 432	Soil Fertility and Plant Nutrient Management Laboratory	
SCSC 455	Environmental Soil and Water Science	
SCSC 458	Watershed, Water and Soil Quality Management	
Total Semester Credit Hours		15

Students must make a grade of C or better in all courses.
