

# ACCOUNTING- 5-YEAR BACHELOR OF BUSINESS ADMINISTRATION AND MASTER OF SCIENCE

This combination program offers students the opportunity to simultaneously earn a Bachelor of Business Administration in Accounting and a Master of Science degree within a variety of business disciplines.

The James Benjamin Department of Accounting offers a 5-year Professional Program in Accounting (PPA) which prepares students for any path. Students must apply for admission into the PPA while, or after, taking ACCT 327 (Financial Reporting I). Students must be able to take the coursework in College Station, Texas.

The objectives of the PPA include developing sound conceptual, technical, analytical, and communication skills that are required for success in the accounting profession. Many accounting graduates are employed by public accounting firms that provide assurance, tax and other services to all types of organizations. Other accounting graduates pursue careers with business firms and financial institutions, within consulting firms, within all levels of government, and as accounting educators.
