ENTO 201 General Entomology  
Credits 3. 2 Lecture Hours. 2 Lab Hours.  
Survey of the major classes of arthropods with special emphasis on species of economic or biological importance; general insect anatomy, physiology, metamorphosis and classification; survey of the biologies of insect orders and major families using common injurious and beneficial species to relate material to production agriculture and the urban environment.

ENTO 208 Veterinary Entomology  
Credits 2. 2 Lab Hours.  
Insects and their relatives causation of economic loss, impacts to well-being and transmission of disease pathogens to domestic and companion animals and wildlife as well as health and well-being of humans through occupational or recreational exposure; insect biology, economic importance and principles and methods of prevention and control.  
Prerequisite: Co-enrollment in ENTO 209.

ENTO 209 Veterinary Entomology Laboratory  
Credit 1. 2 Lab Hours.  
Insects and their relatives causation of economic loss, impacts to well-being and transmission of disease pathogens to domestic and companion animals and wildlife, as well as health and well-being of humans through occupational or recreational exposure; laboratory emphasizes identification of major arthropod pests, use of microscopy and dissection equipment.  
Prerequisite: Concurrent enrollment with ENTO 208.

ENTO 210 Global Public Health Entomology  
Credits 3. 3 Lecture Hours.  
Impacts of insects and insect-borne diseases on public health and well-being around the globe; insect biology, bloodfeeding, and transmission of human diseases; role of insect borne diseases on human history, socio-economic development, and public health infrastructure.  
Prerequisite: Freshman or sophomore classification or approval of instructor.

ENTO 285 Directed Studies  
Credits 0 to 4. 0 to 4 Other Hours.  
Directed individual study in entomology.  
Prerequisites: Freshman or sophomore classification; approval of instructor and department head.

ENTO 289 Special Topics in...  
Credits 1 to 4. 1 to 4 Lecture Hours.  
Selected topics in an identified area of entomology. May be repeated for credit.  
Prerequisite: Approval of instructor.

ENTO 291 Research  
Credits 0 to 4. 0 to 4 Other Hours.  
Research conducted under the direction of faculty member in entomology. May be repeated 2 times for credit.  
Prerequisites: Freshman or sophomore classification and approval of instructor.

ENTO 300/WFSC 300 Field Studies  
Credits 3. 3 Other Hours.  
Integration of principles of animal and plant ecology with environmental factors to characterize wildlife populations. Intensive analysis of specific areas will emphasize either the development of a wildlife management plan or a general vertebrate natural history survey.  
Prerequisite: Junior or senior classification.  
Cross Listing: WFSC 300/ENTO 300.

ENTO 301 Biodiversity and Biology of Insects  
Credits 4. 3 Lecture Hours. 3 Lab Hours.  
Introduction to orders and most important families of insects; order-level morphology and family-level natural history; collection of insects identified to family level provides introduction to collection methods and specimen preparation.  
Prerequisites: ENTO 201 or ENTO 208; 6 hours of biological sciences; junior or senior classification or approval of instructor.

ENTO 305 Evolution of Insect Structure  
Credits 3. 2 Lecture Hours. 3 Lab Hours.  
External morphology of insects; evolution of form and function.  
Prerequisite: 6 hours of biological sciences.

ENTO 306 Insect Physiology  
Credits 3. 2 Lecture Hours. 3 Lab Hours.  
Physiology of insects; structure and function of internal organ systems and their role in insect success.  
Prerequisite: ENTO 201 or ENTO 208; BIOL 111 and BIOL 112; CHEM 101/ CHEM 111 and CHEM 102/CHEM 112.

ENTO 313 Biology of Insects  
Credits 3. 3 Lecture Hours. 3 Lab Hours.  
Study of the orders and important families of insects and related arthropods, including general biology, relationships with plants and other animals, and characteristics used in identification.  
Prerequisite: 3 hours of biological science.

ENTO 315 Biotechnology and Society  
Credits 3. 3 Lecture Hours.  
Understanding the technology and principles of biotechnology; interpreting and communicating biotechnology reports of both popular press and peer-reviewed scientific articles.  
Prerequisite: Junior or senior classification or approval of instructor.

ENTO 320 Honey Bee Biology  
Credits 3. 3 Lecture Hours.  
Introduction of honey bee biology and beekeeping practices to science and non-science majors; honey bees as the model insect to introduce general principles of biology and entomology.  
Prerequisite: Junior or senior classification or approval of instructor.

ENTO 321 Beekeeping  
Credit 1. 3 Lab Hours.  
Basic Knowledge and techniques used in apiculture; tools and knowledge needed to keep bees responsibly and productively.  
Prerequisites: ENTO 320 or concurrent enrollment, junior or senior classification or approval of instructor.

ENTO 322 Insects and Human Society  
Credits 3. 3 Lecture Hours.  
Emphasis on the role insects have played in the development of human cultures; aspects include health, food production and storage, art, music and architecture; overview of historic, present day, and future roles insects will have on environmental movements (green societies), and in underdeveloped, developing and developed societies.  
Prerequisite: Junior or senior classification.
ENTO 401 Principles of Integrated Pest Management
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Integrated pest management (IPM) concepts, principles, development and application; IPM constitutes a series of pest control tactics and strategies toward more sustainable agriculture, natural resources, and urban and rural health and well-being.
Prerequisite: ENTO 201 or ENTO 208.

ENTO 402 Field-Crop Insects
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Application of management strategies for insect/mite pests of small grains, corn, cotton, rice, sorghum, stored products and sunflower; nature and symptoms of damage, life history and habits of common pests. Laboratory consists of pest and pest damage identification supported by field trips.
Prerequisite: ENTO 201 or equivalent.

ENTO 403 Urban Entomology
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Biology, economic importance and control strategies for arthropod pests commonly invading households and commercial structures in urban environments; laboratory consists of urban pest identification and special presentations and demonstrations covering topics related to urban pest problems and their control. Offered in 2011-2012 academic year and alternating years thereafter.
Prerequisite: ENTO 201 or equivalent or approval of instructor.

ENTO 424 Insect Ecology
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Provides basic ecological background with an applied interpretation, emphasizing influences of insect populations and communities on ecosystem processes that influence landscape structure, function and change.
Prerequisites: ENTO 201 or equivalent; 3 hours of biological sciences; junior or senior classification or approval of instructor.

ENTO 425 Disease Ecology
Credits 3. 3 Lecture Hours.
Ecological interactions that influence the distribution and abundance of pathogens, vectors, and hosts ultimately determine the spread of disease; impacts of urbanization, climate change, and other human influenced environmental changes on disease dynamics; integration of disease ecology into pathogen and vector monitoring and comprehensive strategies to reduce disease occurrence.
Prerequisite: Junior or senior classification, or approval of instructor.

ENTO 426/VIBS 426 Methods in Vector-Borne Disease Ecology
Credits 3. 1 Lecture Hour. 5 Lab Hours.
Methodological understanding of how vector-borne diseases are studied in the field and laboratory; hands-on exploration of the ecology disease systems in a one health framework; concepts of design, execution and presentation of research projects; outdoor field work and bio-safety level 2 laboratory.
Prerequisites: Junior or senior classification and approval of instructor. Cross Listing: VIBS 426/ENTO 426.

ENTO 428 Insect Biotechnology
Credits 3. 3 Lecture Hours.
Applications of genetic engineering and biotechnology; specific problems dealing with insects and control of insect pests.
Prerequisites: GENE 301 or GENE 315 or GENE 320/BIMS 320; junior or senior classification or approval of instructor.

ENTO 429 Insect Biotechnology Laboratory
Credit 1. 3 Lab Hours.
Basic technical experience in insect molecular biology and biotechnology, including genomic DNA isolation, PCR, cloning, sequencing and gene manipulation techniques; focus on insect applications for improvement of human health and agriculture.
Prerequisites: ENTO 428; concurrent enrollment in ENTO 428; junior or senior classification or approval of instructor.

ENTO 431/FIVS 431 The Science of Forensic Entomology
Credits 3. 3 Lecture Hours.
Explores the science, methodology and technology employed to gather, preserve and present information about insects and other arthropods in such a manner that this information can be used in courts of law as evidence and testimony to help resolve issues of a criminal or civil nature.
Prerequisite: Junior or senior classification or approval of instructor. Cross Listing: FIVS 431/ENTO 431.

ENTO 432/FIVS 432 Applied Forensic Entomology
Credit 1. 3 Lab Hours.
Laboratory-based course offering practical experience using scientific information, methodology, technology, and legal procedures inherent to the field of forensic entomology; emphasis on collecting, preserving, and identifying information as evidence and testimony in courts of law.
Prerequisites: Concurrent enrollment in ENTO 431/FIVS 431; junior or senior classification or approval of instructor. Cross Listing: FIVS 432/ENTO 432.

ENTO 435 Case Studies in Problem Solving
Credits 3. 3 Lecture Hours.
Development of reasoning strategies by examining a variety of case studies, science and scientific methods; solving real-world problems as part of an investigative team.
Prerequisite: Senior classification or approval of instructor.

ENTO 450/WFSC 450 Caribbean Conservation
Credits 2. 6 Lab Hours.
Provide experience in and appreciation for diverse tropical habitats and the problems associated with conserving these habitats; design and conduct individual research projects on topics of their choice with approval from the instructors on project design and feasibility.
Prerequisites: Concurrent enrollment in ENTO 300/WFSC 300 and ENTO 451/WFSC 451; junior or senior classification. Cross Listing: WFSC 450/ENTO 450.

ENTO 451/WFSC 451 Caribbean Research Seminar
Credit 1. 1 Other Hour.
Document research activities; keep a journal of activities and research methods during study abroad trips.
Prerequisites: Concurrent enrollment in ENTO 300 and 450; junior or senior classification. Cross Listing: WFSC 451/ENTO 451.
ENTO 481 Seminar  
Credit 1. 1 Lecture Hour.  
Report of original investigations, current literature and special features of entomology. 
Prerequisites: ENTO 201 or equivalent; junior or senior classification.

ENTO 482 Occupational and Professional Development  
Credits 2. 2 Lecture Hours.  
Organized instruction in written and oral communication; acquaint students with private and public-sector companies and agencies as well as leading professionals from these firms to reinforce academic instruction and prepare students for the transition to employment, graduate and professional schools. 
Prerequisite: ENTO 201 or ENTO 208; or approval of instructor.

ENTO 484 Professional Internship  
Credits 0 to 4. 0 to 4 Other Hours.  
Independent study and supervised field experience related to a professional area of interest in entomology. May be taken two times for credit. 
Prerequisite: Junior or senior classification or approval of instructor.

ENTO 485 Directed Studies  
Credits 0 to 4. 0 to 4 Other Hours.  
Individual problems. 
Prerequisites: ENTO 201 or equivalent; junior or senior classification; approval of instructor and department head.

ENTO 489 Special Topics in...  
Credits 1 to 4. 0 to 4 Lecture Hours. 0 to 4 Lab Hours.  
Selected topics in an identified area of entomology. May be repeated for credit. 
Prerequisite: Approval of instructor.

ENTO 491 Research  
Credits 0 to 4. 0 to 4 Other Hours.  
Faculty supervised research in entomology. May be taken two times for credit. Registration in multiple sections of this course are possible within a given semester provided that the per semester credit hour limit is not exceeded. 
Prerequisites: Junior or senior classification or approval of instructor.
