ISTM 209 Business Information Systems Concepts
Credits 3. 3 Lecture Hours.
Introduction to the use of computers in data and document management and as a problem-solving tool for business; fundamental concepts of information technology and theory; opportunities to use existing application software to solve various business information systems oriented problems. May not be used to satisfy degree requirements for majors in business.
Prerequisite: For students other than business and agribusiness majors.

ISTM 210 Fundamentals of Information Systems
Credits 3. 3 Lecture Hours.
Introduction to information systems concepts; study of information systems in the functional areas of business; overview of hardware, software and popular operating systems; study of problem solving tools; human factors.
Prerequisite: For business majors.

ISTM 250 Business Programming Logic and Design
Credits 3. 3 Lecture Hours.
Development of structured and object-oriented program logic and design in solving business programming problems; writing, documenting, debugging and testing computer code; emphasis on good coding techniques and logical thinking.
Prerequisite: ISTM 210 or approval of instructor.

ISTM 281 Professional Development Information Systems Seminar
Credit 1. 1 Other Hour.
Exposure to professional issues, contemporary information systems topics, potential MIS careers and employers. May be taken three times for credit.
Prerequisite: Admission to Mays Business School; intend to major in management information systems.

ISTM 310 Network Communications and Infrastructure
Credits 3. 3 Lecture Hours.
Concepts, technologies and applications of on-line and network-based systems; analysis and design of data communications; requirements in an information system environment; impact on business organizations; installation, configuration and management of virtual servers.
Prerequisite: ISTM 250; admission to upper division in Mays Business School.

ISTM 315 Database Programming
Credits 3. 3 Lecture Hours.
Use and application of Structured Query Language (SQL); Database Management Systems (DBMS) in the solution of business problems; database programming.
Prerequisites: ISTM 310; ISTM 320; or approval of instructor.

ISTM 320 Business Systems Analysis and Design
Credits 3. 3 Lecture Hours.
Techniques and methods currently used in system analysis and design including object oriented methods; use of automated tools to support systems development.
Prerequisite: ISTM 250; admission to upper division in Mays Business School.

ISTM 325 Business Object Oriented Programming with Java
Credits 3. 3 Lecture Hours.
Introduction of abstract data types, inheritance, object identity, polymorphism as they relate to building business objects and business classes; use of Java programming language depicting the object orientation concepts; use of class libraries and Java packages for business object construction.
Prerequisites: Admission to upper division in Mays Business School; ISTM 250.

ISTM 370/SCMT 370 Introduction to Energy Industry
Credits 3. 3 Lecture Hours.
History of the modern Oil & Gas Industry; ecosystem of companies driving the industry; operations involved in exploration, production, refining, trading, pipeline, and retail in bringing oil to market; accounting and economics of the industry; issues and solutions in supporting supply chain; discussion of technology innovations occurring in the industry.
Prerequisite: Admission to upper division in Mays Business School.
Cross Listing: SCMT 370/ISTM 370.

ISTM 410 Management of Information Systems
Credits 3. 3 Lecture Hours.
Strategic management of information systems; change and risk management processes during information systems implementation; role of information systems to support business goals; writing business cases for request for proposals and responses; project management techniques.
Prerequisite: ISTM 310; ISTM 320; or approval of instructor.

ISTM 415 Information Systems Capstone Project
Credits 3. 3 Lecture Hours.
Design and development of information system software based on technical specifications; multi-platform environment; database server and web server software deployment.
Prerequisites: ISTM 315; ISTM 410; or approval of instructor.

ISTM 420 Web-Enabled Applications
Credits 3. 3 Lecture Hours.
Distributed business applications using the World Wide Web; advanced discussions of the concepts of internet, intranet, extranet; different methods to design web-enabled applications; active web applications; cutting edge website design; legacy to web integration; use of web-oriented languages.
Prerequisites: ISTM 315.

ISTM 425 Complex Business Application Design
Credits 3. 3 Lecture Hours.
Business application development alternatives; COM and CORBA object models; use of Visual Basic; use of ActiveX controls, ActiveX Servers and ActiveX Documents.
Prerequisites: ISTM 250; senior classification.

ISTM 450 Business Intelligence and Data Mining
Credits 3. 3 Lecture Hours.
Rationale for Business Intelligence and data mining through business case studies; lab training using data mining software; and process of data mining by using commercial data mining software on large data sets.
Prerequisites: Grade of "C" or better in SCMT 303 or equivalent; junior or senior classification.
ISTM 455 Business Information Security and Risk Management  
Credits 3. 3 Lecture Hours.  
Explores business, managerial and technological aspects of information 
security; analysis, design, implementation and management issues 
surrounding effective information security; includes risk management, 
business continuity planning, security policy development.  
Prerequisite: ISTM 310.

ISTM 460 E-Services  
Credits 3. 3 Lecture Hours.  
Examines the deployment and utilization of information technologies 
by businesses, governments and not for profit organizations to deliver 
services, with applications in banking and financial advisory services, 
healthcare, and federal, state and local governments.  
Prerequisite: Senior classification in business or approval of instructor.

ISTM 481 Information Systems Seminar  
Credit 1. 1 Other Hour.  
Exposure to professional issues, contemporary information systems 
topics, potential MIS careers and employers. May be taken three times for 
credit.  
Prerequisite: Admission to upper division in Mays Business School; or 
approval of instructor.

ISTM 484 Management Information Systems Internship  
Credits 1 to 4. 1 to 4 Other Hours.  
A directed internship in an organization to provide students with a 
learning experience supervised by professionals in organizational 
settings appropriate to the student's professional objectives. Must be 
taken on a satisfactory/unsatisfactory basis.  
Prerequisites: Management Information Systems major and approval of 
academic advisor and instructor.

ISTM 485 Directed Studies  
Credits 1 to 4. 1 to 4 Other Hours.  
Directed study of selected problems in an area of management 
information systems not covered in other courses.  
Prerequisites: Admission to upper division in Mays Business School and 
approval of academic advisor and instructor.

ISTM 489 Special Topics in...  
Credits 1 to 4. 1 to 4 Lecture Hours. 0 to 4 Lab Hours.  
Selected topic in an identified field of management information systems.  
Prerequisites: Admission to upper division in Mays Business School and 
approval of academic advisor and instructor.

ISTM 601 Fundamentals of Business Programming  
Credits 3. 3 Lecture Hours.  
Business Application Development using both procedural and object-
oriented programming techniques; use of component based software 
design and development for distributed business software systems.  
Prerequisite: Graduate business classification or approval of instructor.

ISTM 610 Business Data Communications  
Credits 3. 3 Lecture Hours.  
Concepts and technology of on-line and network-based systems in 
business; analysis of data communication requirements, design, 
selection and application of network technologies including wide and 
local area networks, distributed processing, network architecture, 
and systems management and control, software simulation projects 
emphasized. Classification 6 students may not enroll in this course.  
Prerequisites: Graduate classification.
ISTM 635 Business Information Security
Credits 3. 3 Lecture Hours.
Explores the business, managerial, and technological aspects of information security; analysis, design, and implementation issues surrounding effective information security; authentication, authorization, availability, business continuity planning, confidentiality, disaster recovery, encryption, firewalls, fraud protection, security policy development, integrity, risk management, virus protection, VPNs and wireless security. Classification 6 students may not enroll in this course.
Prerequisite: ISTM 610.

ISTM 637 Data Warehousing
Credits 3. 3 Lecture Hours.
Provides an understanding of the process by which a data warehouse system is designed and developed along with the underlying concepts and software systems; includes OLAP models and their differences with standard OLTP models.
Prerequisite: ISTM 615 or approval of instructor.

ISTM 640 Information Systems Sourcing
Credits 3. 3 Lecture Hours.
Identify the challenges of information systems sourcing, as well as the costs, risks, rewards, and strategies involved in sourcing situations; focus on global sourcing of professional services, including IT, business process, and knowledge process outsourcing; issues such as vendor management, legal issues, distributed work teams, and comparing alternative sourcing strategies.
Prerequisites: ISTM 624 or equivalent or approval of instructor; graduate classification in business.

ISTM 643 Corporate Information Planning
Credits 3. 3 Lecture Hours.
Concepts regarding the design and use of computer-based management information and decision support systems; combinations of computing hardware and software and design concepts evaluated to meet managers’ information needs. Classification 6 students may not enroll in this course.
Prerequisites: ISTM 615 or equivalent or approval of instructor.

ISTM 645 IT Security Controls
Credits 3. 3 Lecture Hours.
Familiarization with planning, design, and implementation of controls to minimize risks to business information; focus on the importance of managing business information security; introduction to the tools, concepts and theories to safeguard an organization’s information systems and IT assets; understanding of cryptography and application, operations, and physical security.
Prerequisite: ISTM 635.

ISTM 646 E-Services
Credits 3. 3 Lecture Hours.
Examines the deployment and utilization of information technologies by businesses, governments and not-for-profit organizations to deliver services, with applications in banking and financial advisory services, healthcare, and federal, state and local governments.
Prerequisite: ISTM 620.

ISTM 650 Business Data Mining
Credits 3. 3 Lecture Hours.
Rationale for business Data Mining through case studies of business applications; process of data mining by using commercial Data Mining software on very large data sets; half of the course devoted to lab training in the use of Data Mining software including SAS Enterprise Miner and SPSS Clementine.
Prerequisite: STAT 652 or approval of instructor.

ISTM 652 Customer Relationship Management and Technologies
Credits 3. 3 Lecture Hours.
Theory and application of information technology in customer relationship management, construction of CRM infrastructures in organizations.
Prerequisite: ISTM 615.

ISTM 654 E-Commerce Technologies
Credits 3. 3 Lecture Hours.
Theory and application of constructing E-Commerce sites, including n-tier architecture and technologies, web servers, server interactions with databases, and transaction managers.
Prerequisite: ISTM 615 or equivalent.

ISTM 655 Security Management and Compliance
Credits 3. 3 Lecture Hours.
Familiarization with managerial and legal aspects of business information security; focus on importance of managing business information security and theories to help safeguard an organization’s information systems and IT assets; understanding of Security Architecture and Design, Business Continuity and Disaster Recovery Planning, Laws Investigation and Ethics.
Prerequisite: ISTM 635.

ISTM 656 Global Information Systems
Credits 3. 3 Lecture Hours.
Impact and the central role of Information Systems (IS) on globalization of business; issues of deployment of information systems and technology in international commerce, global IS environmental variables such as technology, legal, political, economic, social and cultural.
Classification 6 students may not enroll in this course.
Prerequisite: ISTM 610 or equivalent, or approval of instructor.

ISTM 657 Information Systems Sourcing
Credits 3. 3 Lecture Hours.
Concerns with the practice of IT consulting; and develops an understanding of consulting practices, business development and revenue management, client relationships, team-based knowledge, knowledge services, technology evaluation, selection and integration, collaboration tools, business process and organizational change, and large application implementations; involves a full semester client-based project.
Prerequisites: ISTM 615, ISTM 620, and SCMT 660, and approval of instructor.

ISTM 664 Professional Internship
Credits 1 to 6. 1 to 6 Other Hours.
A directed internship in an organization to provide students with on-the-job training with professionals in organizational settings appropriate to the student’s professional objectives. May be repeated for credit.
Classification 6 students may not enroll in this course.
Prerequisite: Approval of committee chair and department head.

ISTM 685 Directed Studies
Credits 1 to 4. 1 to 4 Other Hours.
A directed study on selected problems using recent developments in business research methods. Classification 6 students may not enroll in this course.
Prerequisite: Approval of instructor and graduate advisor.
ISTM 686 Theory and Research in Management Information Systems
Credits 3. 3 Lecture Hours.
Theory, applications and human and organizational issues of Management Information Systems (MIS); current academic research into the analysis, design and implementation of computer information systems. Classification 6 students may not enroll in this course.
**Prerequisites:** Doctoral classification and approval of instructor.

ISTM 689 Special Topics in...
Credits 1 to 4. 1 to 4 Other Hours.
Selected topics in identified area of information systems, operations management or management science. Classification 6 students may not enroll in this course. May be repeated for credit.
