

TECHNOLOGY MANAGEMENT - MINOR

The Technology Management minor is designed to provide the students with solid understanding of fundamental knowledge and skills of Information Technology and how the technology can be managed to achieve the organizational goals in today's global digital society. The minor allows students from a wide variety of backgrounds to expand their expertise in information technology and enhance their capabilities to contribute to the organization success.

Please refer to the website <https://engineering.tamu.edu/etid/academics/academic-forms.html> for information, requirements, and application deadlines for adding the minor.
