Ombuds Services

The Office of the Associate Provost for Undergraduate Studies provides Undergraduate Ombuds services to assist students, faculty, staff, and administrators with resolving academic conflicts on an informal and confidential basis. The Ombuds is equally open and accessible to all parties—students, faculty, staff, and administrators—in disputes that may arise when there are differing expectations or conflicting policies regarding academic issues. For more information, please visit the the Ombuds website (http://us.tamu.edu/Students/Academic-Processes/Ombuds-Services.aspx).

What does the Ombuds do?

• Assists members of the university community in solving problems and conflicts
• Investigates claims of unfair treatment or erroneous procedure
• Serves as a neutral listener, resource, advisor, intermediary, and mediator
• Considers all sides of a question impartially and objectively
• Explains established policies and procedures of Texas A&M University
• Develops options for addressing students’ concerns and helps craft a solution
• Facilitates communication between students and others involved in an issue

When would an undergraduate student need an Ombuds?

• There is an issue or a concern that cannot be resolved by the parties involved, or that one or all parties would prefer not to address through formal channels.
• There is a matter that is preferred for handling as “off the record,” or a need for an informal consultation.
• There is a problem and one or more parties are unsure of whom to speak with or what options are available to address it.
• One or more parties feel that a university policy, procedure, or regulation has been applied unfairly, or is itself unfair or ambiguous.
• There is a problem that requires an outside party to negotiate a solution or facilitate your communication with others.

What kinds of concerns could be brought to the Ombuds?

The Ombuds can assist with any concern, but some of the issues brought to the office typically involve the following:

• Academics (grading disputes, testing, procedures, instructor/ student misunderstandings)
• Conflicts between undergraduate advisors and their students
• Disagreements/ misunderstandings with university policy
