

NURSING - BSN, RN TO BSN TRACK

The RN to BSN program enables applicants who hold a Registered Nursing license to earn a baccalaureate degree in nursing.

Students must have an associate degree in nursing from an accredited college and hold a current, unencumbered Registered Nurse license to participate.

This program is approved for delivery via distance education technology. It is delivered asynchronously online to accommodate family and professional responsibilities of the working nurse while advancing their education. The upper division program can be completed in 3 or 4 semesters of study.

ASCEND

The Aggie Student-Centered Express Nursing Degree track (ASCEND) is an RN-to-BSN option exclusively for Blinn College nursing students. The ASCEND program is offered to qualified students who have completed the first or second semester of the associate degree nursing (ADN) program. Once accepted, ASCEND students will co-enroll in Nursing courses at Blinn College and TAMU CON. ASCEND students will complete their BSN within 1 or 2 semesters after earning their ADN.

Application for the ASCEND program must include a written attestation of program eligibility signed by the ADN program director.

Entry to the RN to BSN (Bachelor of Science in Nursing) Program

Admission to the College of Nursing RN to BSN Program is competitive.

Admission decisions are based on multiple elements in the student's academic and professional background.

Minimum requirements include:

- Must graduate from a nationally accredited associate degree in nursing (ADN) program
 - The Accreditation Commission for Education in Nursing (ACEN)
 - The Commission for Nursing Education Accreditation (CNEA)
 - The State Board of Nursing (for select states)
- Grade of C in each prerequisite course
- Cumulative grade point average of 2.5 (on a 4.0 scale); GPA associate degree in nursing course work grade point average of 2.5; ASCEND students must have earned a minimum of 3.0 GPA in Texas A&M College of Nursing prerequisite, nursing science, and Blinn College ADN coursework by the start of classes.
- One professional reference from either a professor or the student's current supervisor
- Professional resume
- Limited number of course repeats, withdraws, or failures in academic history
- The Undergraduate Admissions, Progression, and Graduation Committee may require select applicants to complete timed verbal and written assessments of the student's experiences and attributes, to include community service, leadership, honors and awards and work experience.

- Applicants who complete their Associate Degree in Nursing (ADN) through an LVN to RN or Paramedic to RN bridge program must have earned a minimum of 35 transferable credits in their program to apply.

Minimum enrollment requirements for RN-BSN students:

- Must hold a current, unencumbered RN license
- New ADN graduates enrolled in the ASCEND program may continue enrollment in the RN-to-BSN program but must pass the NCLEX by the end of the next semester following ADN graduation. RN-to-BSN students who do not hold a valid RN license by the end of the first semester of enrollment will be suspended from the program.
- ASCEND Program students must submit an attestation of ongoing program eligibility from the ADN program director prior to enrollment each semester.

Articulation Agreements

Blinn College, South Texas College, and Angelina College

This program is also approved for delivery via asynchronous distance education technology.

¹ Core Curriculum courses are listed on the University Core Curriculum (<https://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/>) page. STAT 201 is recommended to fulfill 3 hours of Mathematics, but is not required.

² Indicates Nursing Science course.

³ These courses may be taken at a community college, but must be completed by the first day at the School of Nursing. Students may elect to place these courses anywhere in their schedule, though it is encouraged that these be completed over the summer.

⁴ Texas common courses BIOL 2401 and 2402 taken at any Texas accredited public institution will meet the requirement for BIOL 319 and BIOL 320.

⁵ Consult with an academic advisor for acceptable courses.

BSN students must make a minimum grade of C in all courses.
