CHEMISTRY - BA

The Bachelor of Arts program, through the availability of a generous number of electives, gives the student a firm and broadly based foundation in chemistry, with the option of pursuing other educational objectives involving specialization in at least one other field in depth. This objective is accomplished by means of the BA program flexibility and by the inclusion of a minor area of study in another discipline or completion of a track as outlined above. Additional elective hours allow further diversification.

The BA degree offers somewhat more flexibility than the BS program, in terms of tailoring a program of study that combines chemistry with an interest in subject areas such as biochemistry, biology, business, computer science, education, forensics, medicine or physics. Although the BA program may in any specific case turn out to be a somewhat less technical curriculum, it meets the needs of many students who plan to use chemistry as a springboard to a career in chemical sales, marketing, law, technical writing, teaching at a pre-college level, science journalism, etc., to name only a few possibilities.

A BA degree in Chemistry coupled with a minor in Biology, or completion of a biological chemistry track, is excellent preparation for a variety of careers in the health-related disciplines. In particular, a BA degree in Chemistry is excellent and proven preparation for medical and dental schools, and affords the superior student the opportunity to maintain flexibility for a broad spectrum of medical or dental careers.

Although not required for the BA program, abundant research opportunities are available to students. The BA program also permits and encourages non-technical elective courses.

| Semester Credit Hours |                                      | 15                    |
| Semester Credit Hours |                                      | 16                    |
### Third Year

**Fall**
- CHEM 315: Fundamentals of Quantitative Analysis  
  Semester Credit Hours: 3
- CHEM 318: Quantitative Analysis Laboratory  
  Semester Credit Hours: 1
- CHEM 327: Physical Chemistry I  
  Semester Credit Hours: 3
- Select three of the following:  
  - Communication
  - Language, philosophy and culture
  - Creative arts
  - Social and behavioral sciences
  - International and cultural diversity
- Course for Minor
  - CHEM 485: Directed Studies
  - CHEM 491: Research
  Semester Credit Hours: 16

**Spring**
- CHEM 325: Physical Chemistry Laboratory II  
  Semester Credit Hours: 1
- CHEM 481: Seminar  
  Semester Credit Hours: 2
- Select one of the following:
  - CHEM 320: Instrumental Analysis Laboratory
  - CHEM 362: Descriptive Inorganic Chemistry
  - CHEM 415: Analytical Chemistry
  - CHEM 446: Organic Chemistry III
  - CHEM 456: Chemical Biology
  - CHEM 462: Inorganic Chemistry
  - CHEM 464: Nuclear Chemistry
  - CHEM 466: Polymer Chemistry
  - CHEM 468: Materials Chemistry of Inorganic Materials
  - CHEM 470: Industrial Chemistry
  - CHEM 483: Green Chemistry
  - CHEM 489: Special Topics in...
  - BICH 410: Comprehensive Biochemistry I
  - BICH 411: Comprehensive Biochemistry II
  - BICH 440: Biochemistry I
  - BICH 441: Biochemistry II
  - PHYS 309: Modern Physics
- Select two of the following:  
  - Communication
  - Language, philosophy and culture
  - Creative arts
  - Social and behavioral sciences
  - International and cultural diversity
- Course for Minor
  - CHEM 485: Directed Studies
  - CHEM 491: Research
  Semester Credit Hours: 14

### Fourth Year

**Fall**
- CHEM 326: Physical Chemistry Laboratory II  
  Semester Credit Hours: 1
- CHEM 481: Seminar  
  Semester Credit Hours: 2
- Select one of the following:
  - CHEM 320: Instrumental Analysis Laboratory
  - CHEM 362: Descriptive Inorganic Chemistry
  - CHEM 415: Analytical Chemistry
  - CHEM 446: Organic Chemistry III
  - CHEM 456: Chemical Biology
  - CHEM 462: Inorganic Chemistry
  - CHEM 464: Nuclear Chemistry
  - CHEM 466: Polymer Chemistry
  - CHEM 468: Materials Chemistry of Inorganic Materials
  - CHEM 470: Industrial Chemistry
  - CHEM 483: Green Chemistry
  - CHEM 489: Special Topics in...
  - BICH 410: Comprehensive Biochemistry I
  - BICH 411: Comprehensive Biochemistry II
  - BICH 440: Biochemistry I
  - BICH 441: Biochemistry II
  - PHYS 309: Modern Physics
- Select two of the following:  
  - Communication
  - Language, philosophy and culture
  - Creative arts
  - Social and behavioral sciences
  - International and cultural diversity
- Course for Minor
  - CHEM 485: Directed Studies
  - CHEM 491: Research
  Semester Credit Hours: 16

**Spring**
- Select one of the following:
  - CHEM 320: Instrumental Analysis Laboratory
Select three of the following:  

COMM 362 Descriptive Inorganic Chemistry  
CHEM 415 Analytical Chemistry  
CHEM 446 Organic Chemistry III  
CHEM 456 Chemical Biology  
CHEM 462 Inorganic Chemistry  
CHEM 464 Nuclear Chemistry  
CHEM 466 Polymer Chemistry  
CHEM 470 Industrial Chemistry  
CHEM 468 Materials Chemistry of Inorganic Materials  
CHEM 483 Green Chemistry  
CHEM 489 Special Topics in...  
BICH 410 Comprehensive Biochemistry I  
BICH 411 Comprehensive Biochemistry II  
BICH 440 Biochemistry I  
BICH 441 Biochemistry II  
PHYS 309 Modern Physics  

Select three of the following:

Communication (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#communication)  
Language, philosophy and culture (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#language-philosophy-culture)  
Creative arts (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#creative-arts)  
Social and behavioral sciences (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#social-behavioral-sciences)  
International and cultural diversity (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#international-cultural-diversity-requirements)  

Course for Minor

CHEM 485 Directed Studies  
CHEM 491 Research

Semester Credit Hours 12  
Total Semester Credit Hours 120

1 Choose a section designated for chemistry majors.
2 Students may substitute any 6 hours of American history courses approved by the University Core Curriculum to fulfill this requirement, but no more than 3 hours may be in Texas history. Students seeking teacher certification must take HIST 105 and HIST 106.
3 These electives must include 12 hours which meet the language, philosophy and culture (3 hours), creative arts (3 hours), social and behavioral science (3 hours) and communication (3 hours) requirements of the University Core Curriculum. In addition, 6 hours of courses must be in the area of international and cultural diversity. These may be in addition to the previous 12 hours of University Core Curriculum courses, or if a course in this category satisfies an area of the Core, it can be used to meet both requirements. Additional elective hours must be used to complete a required minor approved by the granting department or students must satisfy the requirements of one of the approved chemistry track programs.
BA chemistry majors may take CHEM 485 or CHEM 491 as elective courses. The total hours of CHEM 485 and CHEM 491 taken on a graded (A-F) basis may not exceed 9. Additional hours of these courses may be taken on an S/U basis. A maximum of 6 hours of these courses may be included on the degree plan. Electives should be chosen in consultation with the chemistry advisor, and should be selected to meet the residency requirement (36 hours at 300-400-level must be taken at TAMU). Electives recommended in the various track programs should be strongly considered.
4 This is a designated C- or W-course.
