College of Veterinary Medicine and Biomedical Sciences

Administrative Officers

Dean - Eleanor M. Green, B.S., D.V.M.
Associate Dean for Professional Programs - Kenita S. Rogers, D.V.M., M.S.
Associate Dean for Research and Graduate Studies - Bhanu P. Chowdhary, M.V.Sc., Ph.D.
Associate Dean for Undergraduate Education - Evelyn Tiffany-Castiglioni, Ph.D.
Assistant Dean of Biomedical Sciences - Elizabeth Crouch, Ph.D.
Assistant Dean for Finance and Administration - Belinda S. Hale, M.B.A.
Director of Student Services for Professional Programs - Leslie A. Fiechtner, M.S.

General Statement

The College of Veterinary Medicine and Biomedical Sciences consists of five academic departments: Veterinary Integrative Biosciences, Veterinary Large Animal Clinical Sciences, Veterinary Pathobiology, Veterinary Physiology and Pharmacology, and Veterinary Small Animal Clinical Sciences. Each department is administered by a department head, who is responsible to the Dean of Veterinary Medicine and Biomedical Sciences for all programs assigned or developed in the department, including teaching, research, extension and service.

A Veterinary Medical Teaching Hospital and Field Service Clinic are operated within the College to provide clinical laboratories for the veterinary medical educational program.

An extensive research program in animal health and disease is conducted by the faculty and staff of the college, and a substantial number of the teaching faculty members are engaged in research.

A veterinary extension program carries research information to veterinarians, animal owners, and others in the state and nation with the least possible delay. The faculty makes research information available to the students in the classroom and laboratories in a timely manner.

The typical land-grant institutional mandate of teaching, research, patient care and service provides the organizational framework necessary to meet the dynamics in the ever-changing field of veterinary medicine.

Graduate programs leading to the Master of Science and Doctor of Philosophy degrees are available in the departments of the College of Veterinary Medicine and Biomedical Sciences. The programs are research-oriented but sufficiently flexible to permit intensive training in many areas of special training. Clinical specialty training programs are also available. These programs are designed to provide effective training in the areas of professional specialization.

Majors

• Bachelor of Science in Biomedical Sciences
• Bachelor of Science in University Studies, Biomedical Sciences Concentration

Minors

• Biomedical Sciences Minor

Certificates

• International Certificate in Cultural Competency and Communications in Spanish

Masters

• Master of Science in Biomedical Sciences
• Master of Science in Laboratory Animal Medicine
• Master of Science in Science and Technology Journalism

Doctoral

• Doctor of Philosophy in Biomedical Sciences

Professional

• Doctor of Veterinary Medicine in Veterinary Medicine
