

# ENTREPRENEURSHIP - CERTIFICATE

---

A certificate in entrepreneurship and technology commercialization provides a base understanding of:

- new business planning
- key issues encountered when developing commercial applications for new technical discoveries
- the general legal aspects of intellectual property protection
- fundamental business start-up and securities laws
- the management of creativity and innovation in organizational settings

This certificate is open to any graduate student at Texas A&M University.

This program is also approved for delivery via synchronous distance education technology.
