

DEPARTMENT OF DIAGNOSTIC SCIENCES

The Department of Diagnostic Sciences is located in Dallas, Texas. It has two divisions: Oral and Maxillofacial Pathology and Oral and Maxillofacial Radiology, each with their own Program Director and program objectives.

Oral and Maxillofacial Pathology (<https://dentistry.tamu.edu/departments/diagnostic/training-programs/oral-pathology.html>) is responsible for the teaching of all general pathology and oral pathology curriculum to first professional dental, dental hygiene, and graduate students. They provide consultation and biopsy services (<https://dentistry.tamu.edu/departments/diagnostic/pathology-service.html>) to the College of Dentistry and the professional community. They offer a combined MS in Oral Biology and Certificate program in Oral and Maxillofacial Pathology.

Oral and Maxillofacial Radiology (<https://dentistry.tamu.edu/departments/diagnostic/training-programs/oral-radiology.html>) is responsible for the teaching of all maxillofacial radiology curriculum to the first professional dental, dental hygiene, and graduate students. They provide consulting on all imaging issues and render imaging services throughout the College of Dentistry and to patients referred by extramural dental providers through the Imaging Center. They offer a Certificate program in Oral and Maxillofacial Radiology.
