

DOCTOR OF DENTAL SURGERY

The program leading to the degree of Doctor of Dental Surgery (DDS) is designed to develop broadly competent practitioners and encourages both clinical and basic science research in order to instill an appreciation of biomedical research and a spirit of inquiry in each student. The school recognizes the need to support excellence in its educational programs by acquiring and maintaining a highly qualified faculty and students, excellent physical facilities and a competency-based curriculum that is contemporary, comprehensive and efficient. The program in Dentistry is a four year curriculum leading to the Doctor of Dental Surgery degree.

School of Dentistry Admission Information (<http://catalog.tamu.edu/graduate/admission/college-school--information/dentistry/>)

The School of Dentistry is a synergistic environment where students learn life lessons – in addition to dental medicine – from a diverse patient population. These patients help prepare students for the real-life challenges and opportunities awaiting them upon graduation.

Since its founding, the school has graduated more than 9,000 dentists and dental hygienists. The school is known internationally for producing excellent clinicians. More than half of all the dentists in the Dallas/Fort Worth area received their dental education at the school, and nearly one-third of all dentists in Texas are Texas A&M School of Dentistry graduates.

Our Mission

Texas A&M School of Dentistry shapes the future of oral health through excellence in education, research, and patient care in a culture committed to diversity and inclusion.

Our Vision

Texas A&M School of Dentistry will continue to grow as a leader in dental education by:

- Educating exemplary clinicians who deliver patient-centered, evidence-based care.
- Expanding and advancing innovative basic, translational, and clinical research to improve patient care.
- Continually expanding and improving the quality of service to all stakeholders.
- Increasing access to culturally and linguistically competent care throughout the diverse communities we serve.

The Integrated Doctor of Dental Surgery (DDS) and Doctor of Philosophy (PhD)

The School of Dentistry offers an integrated dental and graduate research program leading to the awarding of a DDS and a PhD in Oral Biology. A combined-degree program has been available for over 15 years.

Admission Requirements DDS/PhD

Admission into this combined program requires that the applicant be accepted into the DDS program first, and then make a separate application to the PhD in Oral Biology program. The applicant completes the forms, including additional information on the areas of research

interest, academic background, GRE scores, and prerequisite courses, academic honors, research experiences, and the names of three referees. Recommendation forms are specifically designed with questions on the applicant's scholarly aptitude, including intellectual, problem-solving, and creative skills. The style of questions resembles that used on National Institute of Health/National Institute of Dental and Craniofacial Research (NIH/NIDCR) Career Development applications. Applicants use Apply Texas, which is an all-inclusive site for graduate programs in the State of Texas. Selected applicants will be interviewed by the Oral Biology Graduate Program Director. Applicants must be accepted into both degree programs (DDS and PhD). More information can be viewed on the PhD in Oral and Craniofacial Biomedical Sciences (<https://dentistry.tamu.edu/departments/bms/graduate-programs/phd-program.html>) website.

This program is offered at the School of Dentistry in Dallas, Texas.

Program Requirements

Professional Curriculum

The professional curriculum in dental surgery is a four-year program.

First Year

Fall		Semester Credit Hours
DDDS 601	Biological Foundations of Dentistry	2
DDDS 602	Human Structure, Function and Disease I	8
DDDS 604	Human Defenses and Responses to Infectious Disease ¹	4
DDDS 605	Pathologic Basis of Disease	1
DDDS 611	Ethical Practice ¹	3
DDDS 612	Integrated Practice of Dentistry ¹	2.5
DDDS 614	Introduction to Restorative Dentistry I	5
Semester Credit Hours		25.5

Spring

DDDS 603	Human Structure, Function and Disease II	9.5
DDDS 615	Introduction to Restorative Dentistry II	7
Semester Credit Hours		16.5

Second Year

Summer		
DDDS 702	Oral Pathology ²	2.5
DDDS 714	Comprehensive Dentistry Clinic ²	3
DDDS 716	Integrated Practice of Dentistry Didactic I ³	6
DDDS 717	Integrated Practice of Dentistry Lab I ³	7
DDDS 721	Preclinical Diagnostic Science ³	4
DDDS 731	Prevention and Management of Medical Emergencies in the Dental Office	1
DDDS 742	Local Anesthesia and Nitrous Oxide/ Conscious Sedations	1.5
Semester Credit Hours		25

Fall

DDDS 701	Dental Pharmacology	1.5
DDDS 711	Ethical Practice ¹	1.5
DDDS 741	Basic Principles and Techniques of Exodontia and Dentoalveolar Surgery	1

DDDS 761	Growth and Development Orthodontics ¹	1.5
Semester Credit Hours		5.5
Spring		
DDDS 718	Integrated Practice of Dentistry Didactic II	4
DDDS 719	Integrated Practice of Dentistry Lab II	5
DDDS 771	Pediatric Dentistry	2.5
Semester Credit Hours		11.5
Third Year		
Summer		
DDDS 814	Comprehensive Dentistry Clinic ²	19
DDDS 818	Integrated Practice of Dentistry I ³	7
Semester Credit Hours		26
Fall		
DDDS 802	Medical Pharmacology	1.5
DDDS 811	Ethical Practice ¹	2
DDDS 821	Clinical Principles of Patient Evaluation	2
DDDS 841	Advanced Principles and Techniques of Oral and Maxillofacial Surgery ¹	1
DDDS 871	Pediatric Dentistry ¹	1.5
Semester Credit Hours		8
Spring		
DDDS 819	Integrated Practice of Dentistry II	4
DDDS 842	Temporomandibular Disorders and Sleep-Disordered Breathing	.5
DDDS 861	Orthodontics	1.5
DDDS 899	Dental Board Review	2
Semester Credit Hours		8
Fourth Year		
Summer		
DDDS 914	Comprehensive Dentistry Clinic ²	30
DDDS 917	Dental Board Review ³	2
DDDS 921	Advanced Principles of Patient Evaluation and Management ³	1.5
Semester Credit Hours		33.5
Fall		
DDDS 902	Applied Pharmacology	0.5
DDDS 961	Orthodontics IV Interdisciplinary and Clinical Topics in Orthodontics	1
DDDS 971	Pediatric Dentistry	1
Semester Credit Hours		2.5
Spring		
DDDS 911	Ethical Practice	2
Semester Credit Hours		2
Total Semester Credit Hours		164

¹ Continues into Spring.² Continues into Fall and Spring.³ Continues into Fall.

A candidate for the degree of Doctor of Dental Surgery must fulfill the following requirements:

1. Demonstrate evidence of satisfactory ethical and professional conduct.

2. Satisfactorily complete all of the prescribed courses of study.
3. Pass the Integrated National Board Dental Examination, INBDE®.
