The Department of Teaching, Learning and Culture offers two degrees at the master's level: the Master of Science (MS) in Curriculum and Instruction (thesis) with 32 semester credit hours and the Master of Education (MEd) in Curriculum and Instruction (non-thesis) with 36 semester credit hours. There are two delivery options for students seeking the MEd degree: on-campus or online. The online MEd has five areas of emphasis: Generalist, Literacy and Reading (with Reading Specialist certification), STEM (with STEM Certificate), Urban Education, and MEd with Texas Teacher Certification (The Graduate Certification Program). The on-campus MEd and MS offer areas of emphasis in STEM (Mathematics Education and Science Education), Literacy and Reading, and Multicultural Education.

The Department of Teaching, Learning and Culture also offers the Doctor of Philosophy (PhD) in Curriculum and Instruction in an on-campus delivery format. The program requires a minimum of 64 semester credit hours beyond the master's degree. This program is offered to those with an interest in the philosophical, theoretical and methodological constructs of both applied and basic quantitative and qualitative research. The acquisition of knowledge evolves from conceptualizing the procedures of educational inquiry as they relate to both the consumer and the practitioner. Specializations within this research-based curriculum are designed to encompass the original independent research interests of the individual. Areas of emphasis include STEM (Mathematics Education, Science Education, Technology Education), Urban Education, Literacy and Reading Education, Early Childhood Education, and Teacher Education.

The Department of Teaching, Learning and Culture offers the Doctor of Education (EdD) in Curriculum and Instruction (non-thesis) with 32 semester credit hours and the Master of Education (MEd) in Curriculum and Instruction (non-thesis) with 36 semester credit hours. There are two delivery options for students seeking the MEd degree: on-campus or online. The online MEd has five areas of emphasis: Generalist, Literacy and Reading (with Reading Specialist certification), STEM (with STEM Certificate), Urban Education, and MEd with Texas Teacher Certification (The Graduate Certification Program). The on-campus MEd and MS offer areas of emphasis in STEM (Mathematics Education and Science Education), Literacy and Reading, and Multicultural Education.

Spring Cohort Admission August 1

The Department of Teaching, Learning and Culture also offers a graduate-level post-baccalaureate certification program for individuals who have completed a bachelor's degree and desire initial certification at the elementary, middle grade and secondary level. The certification program requires the completion of twenty-one (21) graduate semester credit hours and the successful completion of the appropriate state certification examinations. Program participants will serve a full public school year internship either in a salaried or non-salaried position. Participants may apply the graduate certification coursework toward the Master of Education (MEd) degree in Curriculum and Instruction. The admission deadlines for the post-baccalaureate certification program are as follows: October 1st for spring admission; December 1st for summer admission. The graduate certification program is an online program offered via distance education technology; however, there is a summer on-campus component.

The Department of Teaching, Learning and Culture also offers PhD students an opportunity to seek an Advanced Research Methods Certificate within the College of Education and Human Development. Some PhD students seek additional advanced certificates in other colleges.

For additional information on the programs offered by the Department of Teaching, Learning and Culture, or for more information on the application process and admission deadlines, contact the Department of Teaching, Learning and Culture by telephone at (979) 862-8032, or visit the department on the website at http://tlac.tamu.edu.
