The Department of Teaching, Learning and Culture offers two degrees at the master’s level: the Master of Science (MS) in Curriculum and Instruction (thesis) and the Master of Education (MEd) in Curriculum and Instruction (non-thesis). There are two delivery options for students seeking the MEd degree: on-campus or online. The online MEd has four areas of emphasis: Generalist, Reading (with Reading Specialist certification), STEM, and Urban Education. The on-campus MEd and MS offer areas of emphasis in English as a Second Language, Mathematics Education, Science Education, Reading and Literacy, and Multicultural Education.

The Department of Teaching, Learning and Culture offers the Doctor of Philosophy (PhD) in Curriculum and Instruction. The program requires a minimum of 64 semester credit hours beyond the master’s degree. This program is offered to those with an interest in the philosophical, theoretical and methodological constructs of both applied and basic quantitative and qualitative research. The acquisition of knowledge evolves from conceptualizing the procedures of educational inquiry as they relate to both the consumer and the practitioner. Specializations within this research-based curriculum are designed to encompass the original independent research interests of the individual. Areas of emphasis include English as a Second Language, Multicultural Education, Mathematics Education, Literacy Education, Science Education, Technology & Teacher Education, and Urban Education.

The Department of Teaching, Learning and Culture also offers an Online Doctor of Education (EdD) in Curriculum and Instruction, specializing in Educational Leadership. The program requires a minimum of 64 semester credit hours beyond the master’s degree, all of which are presented through a web-based delivery system. Students admitted to this program progress only as members of a cohort. Applicants to this program must have completed a master’s degree and must have five years of classroom teaching experience.

The Department of Teaching, Learning and Culture also offers a graduate-level post-baccalaureate certification program for individuals who have completed a bachelor’s degree and desire initial certification at the elementary, middle grade and secondary level. The certification program requires the completion of twenty-one (21) graduate semester credit hours and the successful completion of the appropriate State certification examinations. Program participants will serve a full public school year internship either in a salaried or non-salaried position. Participants may apply the graduate certification coursework toward the Master of Education (MEd) degree in Curriculum and Instruction. The certification deadlines for the post-baccalaureate certification program are as follows: March 1st for fall admission; October 1st for spring admission; December 1st for summer admission.
