DEPARTMENT OF TEACHING, LEARNING AND CULTURE

http://tlac.tamu.edu

Head: Dr. Claire Katz

Associate Department Head for Graduate Studies: Dr. Jamaal Young

Graduate Advisors: Kara Bond; Sydney Zentell; Brenda Vazque

The Department of Teaching, Learning and Culture offers two degrees at the master's level: the Master of Science (MS) in Curriculum and Instruction (thesis) with 32 semester credit hours and the Master of Education (MEd) in Curriculum and Instruction (non-thesis) with 36 semester credit hours. There are two delivery options for students seeking the MEd degree: on-campus or online. The online MEd has four areas of emphasis: Generalist, Literacy and Reading (with Reading Specialist certification), STEM, and Urban Education. The on-campus MEd and MS offer areas of emphasis in STEM (Mathematics Education and Science Education), Literacy and Reading, and Multicultural Education.

The Department of Teaching, Learning and Culture offers the Doctor of Philosophy (PhD) in Curriculum and Instruction in an on-campus delivery format. The program requires a minimum of 64 semester credit hours beyond the master's degree. This program is offered to those with an interest in the philosophical, theoretical and methodological constructs of both applied and basic quantitative and qualitative research. The acquisition of knowledge evolves from conceptualizing the procedures of educational inquiry as they relate to both the consumer and the practitioner. Specializations within this research-based curriculum are designed to encompass the original independent research interests of the individual. Areas of emphasis include STEM (Mathematics Education and Science Education), Multicultural Education, Literacy and Reading Education, and Technology and Teacher Education.

The Department of Teaching, Learning and Culture also offers an Online Doctor of Education (EdD) in Curriculum and Instruction, specializing in Educational Leadership. The program requires a minimum of 64 semester credit hours beyond the master's degree, all of which are presented through distance education technology. Students admitted to this program progress only as members of a cohort. Applicants to this program must have completed a master's degree and must have five years of classroom teaching experience.

The admission deadlines for the Master of Science (MS) degree and Master of Education (MEd) degree are listed below.

Summer Admission	March 1
Fall Admission	March 1
Spring Admission	October 1

Admission to the Doctor of Philosophy (PhD) degree program is once a year and requires an interview.

Fall Admission: International Applicants	October 1
Fall Admission: Domestic Applicants	December 1

Admission to the Online Doctor of Education (EdD) degree program is once a year and requires an interview.

Spring Cohort Admission August 1

The Department of Teaching, Learning and Culture also offers a graduatelevel post-baccalaureate certification program for individuals who have completed a bachelor's degree and desire initial certification at the elementary, middle grade and secondary level. The certification program requires the completion of twenty-one (21) graduate semester credit hours and the successful completion of the appropriate state certification examinations. Program participants will serve a full public school year internship either in a salaried or non-salaried position. Participants may apply the graduate certification coursework toward the Master of Education (MEd) degree in Curriculum and Instruction. The admission deadlines for the post-baccalaureate certification program are as follows: October 1 st for spring admission; December 1 st for summer admission. The graduate certification program is an online program offered via distance education technology; however, there is a summer on-campus component.

The Department of Teaching, Learning and Culture also offers programs at the graduate level that lead to endorsements or certification as a Reading Specialist in the state of Texas. Online MEd students can also earn the STEM certificate. PhD students may seek an Advanced Research Methods Certificate within the School of Education and Human Development. Some PhD students seek additional advanced certificates in other colleges.
