

# MASTER OF ENGINEERING IN SPACE ENGINEERING

---

The program provides students with the required skill set to work in the space engineering field in the development of human and robotic systems, mission design, habitats, manufacturing, resource utilization, and security.

## Additional Requirements

### Additional Requirements

- Residence (p. 1)
- Time Limit (p. 1)
- Foreign Languages (p. 1)
- Internship or Practicum (p. 1)
- Application for Degree (p. 1)

### Residence

No residence requirement exists; however, attention is directed to the rules regarding Limitations on the Use of Transfer, Extension and Certain Other Courses.

See Residence Requirements (<https://catalog.tamu.edu/graduate/academic-expectations-general-degree-requirements/#degree requirementstext>).

### Time Limit

All degree requirements must be completed within a period of seven consecutive years for the degree to be granted. A course will be considered valid until seven years after the end of the semester in which it is taken. Graduate credit for coursework which is more than seven calendar years old at the time of the final examination (oral or written) may not be used to satisfy degree requirements.

### Foreign Languages

No specific language requirement exists for the Master of Engineering degree.

### Internship or Practicum

The final examination is not to be administered until all other requirements for the degree, including any internship, have been substantially completed.

### Application for Degree

For information on applying for your degree, please visit the Graduation (<https://catalog.tamu.edu/graduate/academic-expectations-general-degree-requirements/#degree requirementstext>) section.
