The Department of Environmental and Occupational Health is concerned with the human health effects of exposures to air and water pollution, pesticides, organic solvents, dusts and physical hazards, which occur in the environment, the home, or the workplace.

The department draws from the knowledge generated from disciplines that contribute to recognizing, assessing, and controlling these risks that include epidemiology, toxicology, microbiology, safety engineering, industrial hygiene, medicine, nursing, ergonomics, human factors, well-being, aging, and occupational health.

For degree curricula see the Department of Environmental and Occupational Health. For masters and doctorate degrees see the following links.

Masters
- Master of Public Health in Environmental Health
- Master of Public Health in Occupational Safety and Health

Doctoral
- Doctor of Public Health in Public Health Sciences
