

# GLOBAL HEALTH - CERTIFICATE

The interdisciplinary Global Health Certificate is available to all graduate students at Texas A&M University. Its purpose is to teach those who are interested in public health about global perspectives on the topic, encourage students to consider careers in a variety of settings around the world, and to promote research and innovation in addressing the countless public health problems seen around the world. With a cross-disciplinary perspective, students will develop a broad understanding of global health challenges and opportunities.

To learn more about the program and apply, visit the Graduate Certificate in Global Health website (<https://public-health.tamu.edu/degrees/gh-cert.html>).
