

DOCTOR OF VETERINARY MEDICINE IN VETERINARY MEDICINE

Professional Curriculum in Veterinary Medicine

The professional curriculum seeks to deliver to the veterinary medical profession a student fully prepared to begin a medical career in the arts and sciences of animal health and disease. Emphasis on professional specialization is reserved for graduate programs.

Veterinary medicine encompasses the full scope of the technology of animal health and disease, including the arts and sciences of disease prevention, diagnosis, prognosis and therapy. The professional curriculum begins at the basic level and systematically moves to clinical application.

Graduates are qualified to formulate and implement programs for disease control and prevention in domestic farm animals, poultry, pet animals, zoo animals, fur-bearing animals, laboratory animals and wildlife. They are equipped to administer and advise in public health problems arising from intertransmission of diseases between humans and lower animals and are capable of performing animal disease regulatory duties for governmental agencies. They are also oriented for professional careers in the armed forces.

The degree of Doctor of Veterinary Medicine is awarded to the student upon successful completion of the professional curriculum in veterinary medicine. In addition to the DVM degree, the student must take and pass the NAVLE and state licensing examinations to practice clinical veterinary medicine.

Academic Regulations

Each professional student, upon registering, will receive a copy of the *College of Veterinary Medicine and Biomedical Sciences Professional Student Handbook* which contains the college's policies on grading, promotion, dismissal, probation, grievance procedures, withdrawal, personal conduct and the honor code. Because matriculation in veterinary medicine is a privilege and not a right, the faculty retains the prerogative to request withdrawal of any student who does not attain adequate academic performance or who does not exhibit the personal qualifications prerequisite to the practice of veterinary medicine. These criteria shall apply at all times during the curriculum. Academic performance will not be the only factor in determining admission, promotion, graduation or request for withdrawal.

Scholastic Deficiency

An average grade of C and passing grades in all courses in the professional curriculum are the minimal scholastic achievements considered to be satisfactory. When a student's scholastic performance falls below the minimal satisfactory level in any term, scholastic probation may be imposed or the student may be dropped from the professional curriculum or placed on scholastic suspension from the University.

Scholastic probation is conditional permission for a student to continue in the professional curriculum under the conditions of the probation while working to remove any deficiencies. A student's failure to meet the conditions of scholastic probation may result in dismissal from the

professional curriculum or suspension from the University at the end of any term for which scholastic probation is imposed. The terms of the probation are determined by the Academic Progress Committee for the year of the curriculum in which scholastic deficiency occurs. A student who fails any course prescribed in the professional curriculum or who otherwise fails to achieve satisfactory scholastic progress may be dropped from the curriculum for cause.

Readmission

A student in the professional curriculum who voluntarily withdraws, or who is dropped from the rolls of the University or from the professional veterinary curriculum for cause, forfeits his or her standing and must apply for readmission and be approved before being re-enrolled by policies and procedures of the College of Veterinary Medicine and Biomedical Sciences.

NOTE: While every effort is made to assure accuracy and timeliness of this publication, the College of Veterinary Medicine and Biomedical Sciences is not responsible for any misrepresentation which might arise through error in the preparation of this catalog, or through failure to give notice of changes in its requirements, policies, tuition and fees, course offerings and other matters affecting students or applicants. The provisions of this catalog do not constitute an irrevocable contract between any student or applicant for admission into the professional curriculum of the College of Veterinary Medicine and Biomedical Sciences.

Program Requirements

The professional curriculum in veterinary medicine is a four-year program. During the first three years, classes are scheduled on a semester basis. The fourth-year curriculum consists of 24 weeks of Basic Core Rotations, 18 weeks of elective clinical rotations or career alternative electives, 4 weeks of externship and 2 weeks of vacation. The fourth-year curriculum allows students to choose a species directed career, i.e., equine, companion animal, rural/mixed animal, food animal or a career alternative track.

First Year		Semester Credit Hours
Fall		
VIBS 910	Small Animal Anatomy	4
VIBS 911	Histology	1
VIBS 936	Veterinarians in Society	2
VSCS 910	Integrated Animal Care I	3
VTPB 910	Veterinary Immunology	2
VTPP 910	Physiology I	6
VTPP 914	Professional & Clinical Skills I	3
Semester Credit Hours		21
Spring		
VIBS 912	Clinical Anatomy of Large Animals	3
VIBS 914	Professional & Clinical Skills II	3
VLCS 910	Integrated Animal Care II	2
VTPB 922	Pathology I	3

VTPB 925	Agents of Disease I	4
VTPP 912	Physiology II	5
Semester Credit Hours		20

Second Year**Fall**

VSCS 926	Professional and Clinical Skills III	3
VTPB 930	Agents of Disease II	4
VTPB 927	Clinical Laboratory Medicine-Clinical Pathology	5
VIBS 928	Public Health, Epidemiology and Evidence-Based Medicine	3
VTPB 923	Pathology II	3
VTPP 924	Pharmacology	3
Electives ¹		2
Semester Credit Hours		23

Spring

VLCS 924	Diagnostic Imaging & Interpretation I	2
VLCS 926	Professional & Clinical Skills IV	3
VSCS 930	Principles of Anesthesia & Analgesia	3
VSCS 932	Principles of Surgery	2
VTPB 932	Organ Dysfunction: Recognition, Diagnostics and Supportive Care	4
VMID 944	Integrated Animal Care III - Elements of Care	4
Electives ¹		2
Semester Credit Hours		20

Third Year**Fall**

VLCS 956	Large Animal Diagnostics & Therapeutics I	3.5
VLCS 925	Diagnostic Imaging & Interpretation II	2
VMID 935	Surgery	5
VSCS 934	Professional & Clinical Skills V	3
VSCS 956	Small Animal Diagnostics & Therapeutics I	4.5
Select one of the following:		2
VLCS 958	Career-Focus Tracking I - Food Animal	
VLCS 959	Clinical Focus-Tracking I - Equine	
VSCS 958	Clinical Focus-Tracking I - Companion Animal	
Career Selective ²		4
Semester Credit Hours		24

Spring

VLCS 957	Large Animal Diagnostics & Therapeutics II	3.5
VMID 964	Clinical Experience	3
VMID 966	Professional and Clinical Skills VI	4
VSCS 957	Small Animal Diagnostics & Therapeutics II	4.5
Select one of the following:		2
VLCS 960	Clinical Focus-Tracking II - Equine	
VLCS 961	Career-Focus Tracking II - Food Animal	
VSCS 960	Clinical Focus-Tracking II - Companion Animal	
Career Selective ²		4
Semester Credit Hours		21

Fourth Year

Select a Clinical Track: ³	48	
Companion Animal		
Rural/Mixed Animal		
Equine		
Food Animal		
Alternative		
Semester Credit Hours		48
Total Semester Credit Hours		177

¹ Select 2 elective courses during this semester from VIBS 948, VLCS 948, VSCS 948, VTPB 948 and VTPP 948.

² Select 2 courses highlighting veterinary career options in public health & public policy, research, business & practice, lab animal medicine, exotics/zoo/wildlife, and avian/reptiles/pocket pets during this semester. Select from VIBS 988, VLCS 988, VMID 988, VSCS 988 and VTPB 988.

³ See student program manager for a complete list of courses designated for each track.

Fourth Year

The fourth-year curriculum consists of 26 weeks of basic core rotations, 18 weeks of elective clinical rotations or career alternative electives, 4 weeks of externship and 2 weeks of vacation for 48 credit hours. The fourth-year curriculum allows students to choose a species directed career, i.e., large animal, small animal, mixed animal or an alternative career elective.

Basic Core Rotations ¹**Small Animal Clinic (8 weeks)**

- Small Animal Internal Medicine
- Primary Care Medicine
- General Surgery
- Small Animal Emergency

Large Animal Clinic (4 weeks)

- Food Animal Medicine/Ambulatory or Zoo Med
- Equine Medicine

Anesthesiology (4 weeks)**Community Connections (2 weeks)****Radiology (2 weeks)****Laboratory Services (2 weeks)**

- Diagnostics

Houston SPCA (2 weeks)

- Animal Welfare and Shelter Medicine

Specialty Clinical Rotation (2 weeks)

Available Rotations¹

¹ All rotations are two weeks.

Small Animal Medicine

- Dermatology
- Critical Care
- Dentistry
- Cardiology
- Oncology
- Internal Medicine/Canine
- Internal Medicine/Feline
- Primary Care Medicine
- Neurology/Neurosurgery
- Zoological Medicine and Surgery

Small Animal Surgery

- General
- Orthopedic
- Soft Tissue
- Ophthalmology

Large Animal Hospital

- Food Animal Medicine & Surgery/Ambulatory
- Equine Medicine/Ultrasound
- Equine Field Services
- Equine Community Practice
- Equine Lameness
- Equine Soft Tissue Surgery
- Equine Orthopedic Surgery
- Equine Theriogenology
- Small Ruminant Theriogenology
- Dairy Reproduction
- TDCJ

Anesthesiology

TVMDL (Texas Veterinary Medical Diagnostic Lab)

Ultrasound

Alternative Career Electives

Externship

Vacation
