The Department of Veterinary Integrative Biosciences (VIBS) offers graduate degree programs aimed at educating students to advance biomedical science through original research and to disseminate that knowledge for the protection and promotion of animal and human health. The department awards the interdepartmental MS and PhD degrees in Biomedical Sciences (with specialties in Biomedical Genomics and Bioinformatics, Clinical and Translational Sciences, Epidemiology, Infection and Immunity, and Physiology and Developmental Biology). Also managed and awarded by the department are the interdepartmental MS degree in Science and Technology Journalism and the departmental MS degree in Veterinary Public Health-Epidemiology.

Many of the department faculty participate in University-wide graduate training programs in Neuroscience, Reproductive Biology, Genetics, Toxicology, Biotechnology, and Ecology and Evolutionary Biology.

In addition to developing research expertise in their specialty, students have the opportunity to learn anatomy, public health practices, and genomics in a variety of domestic species, wildlife species, and laboratory animals. Training in anatomy spans histology, histochemistry, neuroanatomy, and state-of-the-art interactive laser microscopy. Training in public health emphasizes epidemiology, food safety, food toxicology and control of zoonotic diseases. Training in genomics emphasizes genetics of health and disease, phylogeny of mammalian species, bioinformatics and comparative genomics.

Master of Science in Science and Technology Journalism
The Master of Science in Science and Technology Journalism is a distinctive program to prepare students for careers as science and technology writers, reporters and editors in the public media, government, industry, academia and other sectors. It also can serve as a foundation for doctoral study.

Master of Science in Veterinary Public Health-Epidemiology
The Master of Science in Veterinary Public Health-Epidemiology is designed to serve the needs of veterinarians and those with an interest in public health wishing to go into some aspects of government (state or federal) service, military veterinary personnel seeking advanced training in public health and students with a career goal of academia or research. It can also serve as the foundation for students interested in attending professional school.

Students prepare degree plans that fit their area of study and professional or research goals in consultation with a committee of graduate faculty members led by a faculty mentor/chairperson. The general procedural rules are those specified in this catalog. More details on core course requirements, degree plans, and administrative matters are available in the school’s “Graduate Student Handbook.”
Hamer, Sarah A, Professor  
Vet Integrative Biosciences  
DVM, Michigan State University, 2011  
PHD, Michigan State University, 2010

Hartberg, Yasha M, Lecturer  
Vet Integrative Biosciences  
PHD, Binghamton University, 2016

Hiney, Jill K, Research Assistant Professor  
Vet Integrative Biosciences  
PHD, Texas A&M University, 1986  
PHD, Texas A&M University, 1992

Johnson, Gregory A, Professor  
Vet Integrative Biosciences  
PHD, University of Wyoming, 1997

Kneese, Dana A, Clinical Assistant Professor  
Vet Integrative Biosciences  
DVM, Texas A&M University, 2013  
PHD, Texas A&M University, 2009

Li, Jianrong, Professor  
Vet Integrative Biosciences  
DVM, Colorado State University, 2003

Murphy, William J, Professor  
Vet Integrative Biosciences  
PHD, The University of Tulsa, 1997

Ndeffo Mbah, Martial Loth, Assistant Professor  
Vet Integrative Biosciences  
PHD, University of Cambridge, UK, 2010

O’Hara, Todd, Professor  
Vet Integrative Biosciences  
DVM, University of Wisconsin, 1992  
PHD, Virginia Commonwealth University, 1988

Pine, Michelle D, Clinical Associate Professor  
Vet Integrative Biosciences  
DVM, University of Missouri-Columbia, 1991  
PHD, Texas A&M University, 2002

Raudsepp, Terje, Professor  
Vet Integrative Biosciences  
PHD, Swedish University of Agricultural Sciences, 1999

Rijnkels, Monique G, Research Associate Professor  
Vet Integrative Biosciences  
PHD, Leiden University, 1997

Ritter, Nicola L, Instructional Associate Professor  
Vet Integrative Biosciences  
PHD, Texas A&M University, 2014

Seo, Heewon, Research Assistant Professor  
Vet Integrative Biosciences  
PHD, Yonsei University, 2012

Skow, Loren C, Senior Professor  
Vet Integrative Biosciences  
PHD, Texas A&M University, 1976

Sparks, Cathryn, Instructional Associate Professor  
Vet Integrative Biosciences  
DVM, Texas A&M University, 2008

Taylor, Robert J, Research Professor  
Vet Integrative Biosciences  
PHD, Texas A&M University, 1987

Wilson, Patrick, Clinical Associate Professor  
Vet Integrative Biosciences  
DVM, Washington State University, 1990
