MASTER OF MARITIME BUSINESS ADMINISTRATION AND LOGISTICS (MBAA) AND JURIS DOCTOR (JDLW) COMBINED DEGREE PROGRAM

The Maritime industry is a highly regulated area that often requires a broad understanding of the legal system. This combined degree program offered by the School of Law and Texas A&M University at Galveston’s Maritime Business Administration would permit qualified students to satisfy the requirements for both the Juris Doctor (JD) and Masters in Maritime Business Administration and Logistics (MBAA) degrees concurrently in four years. Under the combined degree program, students would earn a minimum of ninety credit hours to satisfy the requirements of the JD degree and thirty-six credit hours to satisfy the requirements of the MBAA degree. For students in the combined MBAA/JD program, the Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree. The School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree. However, in combination, a student may double count no more than 15 credits in both degrees.

Students who enroll in the JD/MBAA combined degree program complete their first two academic years at the School of Law in Fort Worth, TX and the JD degree will be the primary degree program. Upon the conclusion of the spring semester of the second year, students begin coursework in the MBAA degree program (offered in Galveston, TX), and the third academic year is completed within the MBAA degree program with the MBAA program designated the primary degree program. For the fourth and final year, students will be based at the School of Law in Fort Worth, TX and the JD degree will again be the primary degree program, with the potential for some coursework, including practical training, also taken with the Maritime Business Administration. Students must complete the core curriculum requirements and all additional graduation requirements published in the applicable graduate catalogs for the JD degree and the MBAA degree.

The MBAA degree program is also approved for delivery via asynchronous distance education technology.

Scholastic Requirements
Students must be in good academic standing and conduct throughout the entirety of the combined degree program. Students who are in good academic standing with one degree program but not the other may be eligible to earn a degree from the program at which they remain in good standing only. The degree for each program will be awarded concurrently when the degree requirements for both programs are completed.

Students may choose which of the approved courses will concurrently count toward the other degree. However, students may not count a course taken at the School of Law toward the MBAA degree if the effect of counting that course would lower the student’s total MBAA GPA below 3.00. Similarly, students may not count a course taken at Maritime Business Administration toward the JD degree if the effect of counting that course would lower the student’s total JD GPA below 2.33.

Admission
Candidates for the JD/MBAA combined degree program must apply separately to the School of Law and the Maritime Business Administration graduate programs and are required to meet both programs’ admission requirements. The decision to admit any particular candidate rests entirely with each program.

Steps to Fulfill a Masters Program (http://catalog.tamu.edu/graduate/academic-expectations-general-degree-requirements/#stepstofulfillagraduateprogramtext)

Program Requirements

Master of Maritime Business Administration and Logistics

Program Requirements
Student’s Advisory Committee
On-Campus and Distance Education Degree Programs

For the Non-Thesis Student:

All MBA non-thesis students’ advisory committees will consist of the departmental graduate advisor for the MBAA program or the department head for the Maritime Business Administration department. The departmental graduate advisor or the department head has the responsibility of approving the proposed degree plan for all non-thesis MBAA students.

For the Thesis Student:

After receiving admission to graduate studies and enrolling for coursework, the student will consult with the head of his or her major or administrative department concerning appointment of the chair of his or her advisory committee. The student’s advisory committee for the master’s degree will consist of no fewer than three members of the graduate faculty, representative of the student’s fields of study and research. The chair or the co-chair of the advisory committee must be from the student’s major department (or intercollegiate faculty, if applicable), and at least one or more of the members must have an appointment to a department other than the student’s major department.

The chair, in consultation with the student, will select the remainder of the advisory committee. The student will interview each prospective committee member to determine whether he or she is willing to serve. Only graduate faculty members located on Texas A&M University campuses may serve as chair of a student's advisory committee. Other graduate faculty members located off campus may serve as a member or co-chair (but not chair) with a member as the chair. The chair of the committee, who usually has immediate supervision of the student’s research and thesis, has the responsibility for calling required meetings of the committee and for calling meetings at any other time considered desirable.

If the chair of a student’s advisory committee voluntarily leaves the University and the student is near completion of the degree and wants the chair to continue to serve in this role, the student is responsible for securing a current member of the University Graduate Faculty, from the student’s academic program and located near the Texas A&M University campus site, to serve as the co-chair of the committee. The Department Head may request in writing to the Associate Provost and Dean of
the Graduate and Professional School that a faculty member who is on an approved leave of absence or has voluntarily separated from
the university, be allowed to continue to serve in the role of chair of a
student's advisory committee without a co-chair for us to one year. The
students should be near completion of the degree. Extensions beyond the
one year period can be granted with additional approval of the Dean.

If the chair of the student's advisory committee is unavailable for an
extended time in any academic period during which the student is
involved in activities relating to an internship, thesis or professional
paper, and is registered for courses such as 684, 691, 692 or 693, the
student may request, in writing, that the department head appoint an
alternate advisory committee chair during the interim period.

The duties of the committee include responsibility for the proposed
degree plan, the research proposal, the thesis and the final examination.
In addition, the committee as a group and as individual members are
responsible for advising the student on academic matters, and, in the
case of academic deficiency, initiating recommendations to the Graduate
and Professional School.

The committee members' approval on the degree plan indicate their
willingness to accept the responsibility for guiding and directing the
entire academic program of the student and for initiating all academic
actions concerning the student. Although individual committee members
may be replaced by petition for valid reasons, a committee cannot resign
en masse.

Degree Plan
On-Campus and Distance Education Degree Programs

Each graduate student must submit an official degree plan to the
Graduate and Professional School for approval. The degree plan
formally declares his/her degree objective, the membership of the
advisory committee, and the specific courses that she/he will be
required to complete as part of the degree program. She/he will develop
designed advisory committee. The Head of the Department of Maritime Business
Administration must approve all degree plans. Completed degree plans
must be submitted to the Graduate and Professional School according to
the following regulation with the student meeting which ever of these
deadlines falls earliest:

- Following the deadline imposed by the student's college or
interdisciplinary degree program.
- No later than 90 days prior to the date of the final oral examination or
thesis defense – thesis students only.
- According to deadlines published in the Graduate and Professional
School calendar each semester for graduation that semester. The
calendar may be found at https://grad.tamu.edu/.

Specific rules and limitations on coursework and committee membership
can be found in the Texas A&M University Graduate and Professional
Catalog. Once a degree plan is approved by the Graduate and
Professional School, changes in coursework or committee membership
may be requested by petition to the Graduate and Professional School.
Changes of major, degree or department must be requested by submitting
a petition and/or a new degree plan/coursework petition. Additional
flexibility to replace required courses with courses targeted to their area
of research is available to thesis option students upon recommendation and
approval by their committee and the department head.

Credit Requirement
On-Campus and Distance Education Degree Programs

A minimum of 36 semester credit hours of approved courses and
research hours are required for Thesis Option (Research Track)
MBAA students. A minimum of 36 semester credit hours of approved
coursework is required for the Non-Thesis Option (Professional Track)
MBAA students.

The 36-hour Thesis Option (Research Track) curriculum is structured with
21 hours of required courses and 15 hours of electives. Students may use
up to 6 hours of their elective coursework as MARA 691 research hours.
Students should consult with the Graduate Advisor or their advisory
committee regarding required and elective coursework.

The 36-hour Non-Thesis Option (Professional Track) curriculum is
structured with 21 hours of required courses and 15 hours of elective
coursework. Students should consult with the Graduate Advisor or their advisory
committee regarding required and elective coursework.

The combined degree program includes a total of 126 hours without
duplication of credits. The Department of Maritime Business
Administration will accept up to 9 hours of credit in professional law
courses toward the MBAA degree. The School of Law will accept up to 15
hours of credits in maritime business administration graduate courses
toward the JD degree. However, in combination, a student may not apply
more than 15 hours to both degrees. All courses in the MBAA degree
program are offered as distance education courses. Students in the JD
program may take up to 30 hours of distance education credits towards
the JD degree.

Transfer of Credit
On-Campus and Distance Education Degree Programs

Students may transfer a maximum of 12 hours of courses or one-third
of the total hours of the degree plan, whichever number is greater, from
an approved institution upon the advice of their advisory committee.
Courses taken in residence at an accredited U.S. institution or approved
international institution with a final grade of B or better might be
considered for transfer credit if, at the time the courses were completed,
the student was in degree-seeking status at Texas A&M University at
Galveston or at the institution at which the courses were taken, and if the
courses would be accepted for credit toward a similar degree for students
in degree-seeking status at the host institution.

Coursework in which no formal grades are given or in which grades other
than letter grades (A, B, C, etc.) are given (for example, CR, P, S, U, H, etc.)
is not accepted for transfer credit. Courses appearing on the degree
plan with grades of D, F or U may not be absolved by transfer work.
Credit for thesis research or the equivalent is not transferable. Credit
for coursework submitted for transfer from any college or university
must be shown in semester credit hours or equated to semester credit
hours. Students must have an official transcript sent directly from the
university in which the transfer coursework was taken to the Texas A&M
at Galveston Office of Admissions and Records. Courses completed at
other institutions are not included in computing the GPA.

Limitations on the Use of Transfer, Extension and Certain Other Courses
On-Campus and Distance Education Degree Programs

If otherwise acceptable, certain courses may be used toward meeting
credit-hour requirements for the master's degree under the following
limitations.
1. The total of any combination of A and B below may not exceed the greater of either 12 hours or one third (1/3) of the total hours on the degree plan. The following restrictions apply:
   a. Courses taken in residence at an accredited U.S. institution, or approved international institution with a final grade of B or greater, will be considered for transfer credit if, at the time the courses were completed, the student was in degree-seeking status at Texas A&M University, or the student was in degree-seeking status at the institution at which the courses were taken; and if the courses would be accepted for credit toward a similar degree for students in degree-seeking status at the host institution. Courses previously used for another degree are not acceptable for degree plan credit.
   b. A maximum of 12 credit hours of 489 and/or 689 (Special Topics).

2. A maximum of 8 hours of 691 (Research), 4 hours of 684 (Professional Internship), or 9 hours of 485 and/or 685 (Directed Studies), and up to 3 hours of 690 (Theory of Research) or 695 (Frontiers in Research). Any combination of 684, 685, 690, 691 and 695 may not exceed one-fourth (1/4) of the total credit hour requirement shown on the individual degree plan.

3. A zero credit 684 or 685 course is only allowed for non-thesis option master's students. A zero credit 681 course can be used for either thesis or non-thesis option master's students. Other courses, including 691 research hours, are not eligible for zero credit.

4. A maximum of 2 hours of Seminar (481/681).

5. A maximum of 9 hours of advanced undergraduate courses (300- or 400-level).

6. No credit may be obtained by correspondence study. (Courses in the student's degree plan which may be delivered in whole or in part by electronic means are not considered "correspondence study").

7. For graduate courses of three weeks' duration or less, up to 1 hour of credit may be obtained for each five-day week of coursework. Each week of coursework must include at least 15 contact hours.

8. Extension courses are not acceptable for credit.

9. For non-distance degree programs, no more than 50 percent of the credit hours required for the program may be completed through distance education courses.

10. To receive a graduate degree from Texas A&M University, students must earn one-third or more of the credits through the institution's own direct instruction. This limitation also applies to joint degree programs.

Exceptions will only be permitted in unusual cases and when petitioned by the student's advisory committee and approved by the Graduate and Professional School.

Thesis Option

On-Campus and Distance Education Degree Programs

The thesis option is designed to allow the student to demonstrate research capabilities through developing an independent and thorough investigation of a particular problem of interest. This would also prepare the student for further graduate studies. An acceptable thesis is required for the Master of Maritime Business Administration and Logistics degree for students who select the thesis option program. The finished work must reflect a comprehensive understanding of the pertinent literature and express in clear English, the problem(s) for study, the method, and the significance and results of the student's original research. Guidelines for the preparation of the thesis are available in the Thesis Manual which is available online at https://grad.tamu.edu/.

After successful defense (or exemption from) and approval by the student's advisory committee and the Head of the Department of Maritime Business Administration, students must submit their thesis to the Graduate and Professional School. Students must submit their thesis in electronic format as a single PDF file.

No credit hours of 684 (Professional Internship) may be used for the thesis option for the Master of Maritime Business Administration and Logistics degree. A maximum of 8 credit hours of 691 (Research) or 485 and/or 685 (Directed Studies), and up to 3 credit hours of 690 (Theory of Research) or 695 (Frontiers in Research) may be used toward the thesis option of the Master of Maritime Business Administration and Logistics degree. In addition, any combination of 685, 690, 691 and 695 may not exceed 12 credit hours.

The 36-hour thesis-option curriculum is structured with 21 hours of required courses and 15 hours of optional elective courses of which at least 6 hours are in 691 courses. Additional flexibility to replace required courses targeted to their area of research is available to thesis-option students upon recommendation and approval by their committees and the Head of the Department of Maritime Business Administration.

Thesis Proposal

On-Campus and Distance Education Degree Programs

For the thesis option, the student must prepare a thesis proposal for approval by the advisory committee and the head of the Department of Maritime Business Administration. This proposal must be submitted to the Graduate and Professional School at least 15 working days prior to the submission of the request for the final examination. There are compliance issues that must be addressed if graduate students are performing research involving human subjects, animals, infectious biohazards and recombinant DNA. Students involved in these types of research should check with the Office of Research Compliance and Biosafety at (979) 458-1467. Call (979) 458-1467 to address questions about all research compliance responsibilities. Additional information can also be obtained on the website rcb.tamu.edu (https://vpr.tamu.edu/research-compliance-and-biosafety/).

Final Examination/Thesis Defense

On-Campus and Distance Education Degree Programs

This section applies to thesis students only.

A student must pass a final examination by dates announced each semester or summer term in the Graduate and Professional School Calendar. To be eligible to take the final examination, a student's GPA must be at least 3.00 for courses on the degree plan and for all courses completed at Texas A&M which are eligible to be applied to a graduate degree, and there must be no unsolved grades of D, F or U for any course listed on the degree plan. To absolve a deficient grade, the student must repeat the course at Texas A&M University and achieve a grade of C or better. All coursework on the degree plan must have been completed with the exception of those hours for which the student is registered. For thesis-option students, an approved thesis proposal must be on file in the Graduate and Professional School according to published deadlines prior to the final examination or submission of the request for exemption from the final examination.

A request to hold and announce the final examination must be submitted to the Graduate and Professional School a minimum of 10 working days in advance of the scheduled date for the examination. The Graduate and Professional School must be notified in writing of any cancellations. A student may be given only one opportunity to repeat the final examination
for the master’s degree and that must be within a time period that does not extend beyond the end of the next regular semester (summer terms are excluded).

For thesis option students, the final examination covers the thesis and all work taken on the degree plan and at the option of the committee may be written or oral or both. The final examination may not be administered before the thesis is available to all members of the student’s advisory committee in substantially final form, and all members have had adequate time to review the document. The examination is conducted by the student’s advisory committee as finally constituted. A thesis option student must be registered in the University in the semester or summer term in which the final examination is taken. Persons other than members of the graduate faculty may, with mutual consent of the candidate and the major professor, attend final examinations for advanced degrees. Upon completion of the questioning of the candidate, all visitors must excuse themselves from the proceedings. A positive vote by all members of the graduate committee with at most one dissension is required to pass a student on his or her exam. A department, or interdisciplinary degree program, may have a stricter requirement provided there is consistency within all degree programs within a department or interdisciplinary degree program.

The Report of the Final Examination Form must be submitted with original signatures of only the committee members approved by the Graduate and Professional School. If an approved committee member substitution (1 only) has been made, his/her signature must also be submitted to the Graduate and Professional School. If necessary, multiple copies of the form may be submitted with different committee member original signatures. If an approved committee member substitution (1 only) has been made, his/her signature must be included on the form submitted to the Graduate and Professional School.

**Non-Thesis Option On-Campus and Distance Education Degree Programs**

A final examination is not required for the non-thesis option.

**Juris Doctor Program Requirements**

The JD degree is conferred on students who satisfactorily complete a minimum of 90 credit hours with a cumulative grade point of 2.33 or better. In addition, each student must complete an upper-level rigorous writing requirement, a six-hour experiential requirement, and a 30-hour pro bono requirement. Students must complete their degree requirements within 72 months of starting law school.

**Degree Plan**

The combined degree program includes a total of 126 hours without duplication of credits. The Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree. The School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree. However, in combination, a student may not apply more than 15 hours to both degrees. All courses in the MBAA degree program are offered as distance education courses. Students in the JD program may take up to 30 hours of distance education credits towards the JD degree.

Below is the degree plan for the JD/MBAA combination degree program.

1 Students must successfully complete a minimum of six credit hours in one or more upper-level experiential courses. As part of the six credit hours, the student must successfully complete an approved externship or a clinic that involves advising or representing one or more actual clients or serving as a third-party neutral. An experiential course must be a simulation course, a law clinic, or a field placement.

2 One LARW III course is required.

3 Courses satisfying learning objectives for both degrees can count toward the completion of both degrees provided that (1) the Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree;
(2) the School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree; and (3) in combination, a student may not apply more than 15 hours to both degrees. The initial list of courses that will count towards both the JD degree and the MBAA degree include LAW 7056, LAW 7222, LAW 7339, LAW 7371, LAW 7707S, LAW 7835 (if satisfies MBAA requirements for practical experience) and other LAW electives with MBAA Advisor approval; MARA 625, MARA 604, MARA 645, MARA 672, and MARA 675 (if it satisfies JD requirements for practice experience).

Additional Requirements

Master of Maritime Business Administration and Logistics

Program Requirements

Student’s Advisory Committee

On-Campus and Distance Education Degree Programs

For the Non-Thesis Student:

All MBAA non-thesis students’ advisory committees will consist of the departmental graduate advisor for the MBAA program or the department head for the Maritime Business Administration department. The departmental graduate advisor or the department head has the responsibility of approving the proposed degree plan for all non-thesis MBAA students.

For the Thesis Student:

After receiving admission to graduate studies and enrolling for coursework, the student will consult with the head of his or her major or administrative department concerning appointment of the chair of his or her advisory committee. The student’s advisory committee for the master’s degree will consist of no fewer than three members of the graduate faculty, representative of the student’s fields of study and research. The chair or the co-chair of the advisory committee must be from the student’s major department (or intercollegiate faculty, if applicable), and at least one or more of the members must have an appointment to a department other than the student’s major department.

The chair, in consultation with the student, will select the remainder of the advisory committee. The student will interview each prospective committee member to determine whether he or she is willing to serve. Only graduate faculty members located on Texas A&M University campuses may serve as chair of a student’s advisory committee. Other graduate faculty members located off campus may serve as a member or co-chair (but not chair) with a member as the chair. The chair of the committee, who usually has immediate supervision of the student’s research and thesis, has the responsibility for calling required meetings of the committee and for calling meetings at any other time considered desirable.

If the chair of a student’s advisory committee voluntarily leaves the University and the student is near completion of the degree and wants the chair to continue to serve in this role, the student is responsible for securing a current member of the University Graduate Faculty, from the student’s academic program and located near the Texas A&M University campus site, to serve as the co-chair of the committee. The Department Head may request in writing to the Associate Provost and Dean of the Graduate and Professional School that a faculty member who is on an approved leave of absence or has voluntarily separated from the university, be allowed to continue to serve in the role of chair of a student’s advisory committee without a co-chair for us to one year. The students should be near completion of the degree. Extensions beyond the one year period can be granted with additional approval of the Dean.

If the chair of the student’s advisory committee is unavailable for an extended time in any academic period during which the student is involved in activities relating to an internship, thesis or professional paper, and is registered for courses such as 684, 691, 692 or 693, the student may request, in writing, that the department head appoint an alternate advisory committee chair during the interim period.

The duties of the committee include responsibility for the proposed degree plan, the research proposal, the thesis and the final examination. In addition, the committee as a group and as individual members are responsible for advising the student on academic matters, and, in the case of academic deficiency, initiating recommendations to the Graduate and Professional School.

The committee members’ approval on the degree plan indicate their willingness to accept the responsibility for guiding and directing the entire academic program of the student and for initiating all academic actions concerning the student. Although individual committee members may be replaced by petition for valid reasons, a committee cannot resign en masse.

Degree Plan

On-Campus and Distance Education Degree Programs

Each graduate student must submit an official degree plan to the Graduate and Professional School for approval. The degree plan formally declares his/her degree objective, the membership of the advisory committee, and the specific courses that she/he will be required to complete as part of the degree program. She/he will develop their proposed degree plan in consultation with their designated advisory committee. The Head of the Department of Maritime Business Administration must approve all degree plans. Completed degree plans must be submitted to the Graduate and Professional School according to the following regulation with the student meeting which ever of these deadlines falls earliest:

- Following the deadline imposed by the student’s college or interdisciplinary degree program.
- No later than 90 days prior to the date of the final oral examination or thesis defense – thesis students only.
- According to deadlines published in the Graduate and Professional School calendar each semester for graduation that semester. The calendar may be found at https://grad.tamu.edu/.

Specific rules and limitations on coursework and committee membership can be found in the Texas A&M University Graduate and Professional Catalog. Once a degree plan is approved by the Graduate and Professional School, changes in coursework or committee membership may be requested by petition to the Graduate and Professional School. Changes of major, degree or department must be requested by submitting a petition and/or a new degree plan/coursework petition. Additional flexibility to replace required courses with courses targeted to their area of research is available to thesis option students upon recommendation and approval by their committee and the department head.

Credit Requirement

On-Campus and Distance Education Degree Programs

A minimum of 36 semester credit hours of approved courses and research hours are required for Thesis Option (Research Track)
MBAA students. A minimum of 36 semester credit hours of approved coursework is required for the Non-Thesis Option (Professional Track) MBAA students.

The 36-hour Thesis Option (Research Track) curriculum is structured with 21 hours of required courses and 15 hours of electives. Students may use up to 6 hours of their elective coursework as MARA 691 research hours. Students should consult with the Graduate Advisor or their advisory committee regarding required and elective coursework.

The 36-hour Non-Thesis Option (Professional Track) curriculum is structured with 21 hours of required courses and 15 hours of elective coursework. Students should consult with the Graduate Advisor or their advisory committee regarding required and elective coursework.

The combined degree program includes a total of 126 hours without duplication of credits. The Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree. The School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree. However, in combination, a student may not apply more than 15 hours to both degrees. All courses in the MBAA degree program are offered as distance education courses. Students in the JD program may take up to 30 hours of distance educations credits towards the JD degree.

Transfer of Credit

On-Campus and Distance Education Degree Programs

Students may transfer a maximum of 12 hours of courses or one-third of the total hours of the degree plan, whichever number is greater, from an approved institution upon the advice of their advisory committee. Courses taken in residence at an accredited U.S. institution or approved international institution with a final grade of B or better might be considered for transfer credit if, at the time the courses were completed, the student was in degree-seeking status at Texas A&M University at Galveston or at the institution at which the courses were taken, and if the courses would be accepted for credit toward a similar degree for students in degree-seeking status at the host institution.

Coursework in which no formal grades are given or in which grades other than letter grades (A, B, C, etc.) are given (for example, CR, P, S, U, H, etc.) is not accepted for transfer credit. Courses appearing on the degree plan with grades of D, F or U may not be absolved by transfer work. Credit for thesis research or the equivalent is not transferable. Credit for coursework submitted for transfer from any college or university must be shown in semester credit hours or equated to semester credit hours. Students must have an official transcript sent directly from the university in which the transfer coursework was taken to the Texas A&M at Galveston Office of Admissions and Records. Courses completed at other institutions are not included in computing the GPA.

Limitations on the Use of Transfer, Extension and Certain Other Courses On-Campus and Distance Education Degree Programs

If otherwise acceptable, certain courses may be used toward meeting credit-hour requirements for the master’s degree under the following limitations.

1. The total of any combination of A and B below may not exceed the greater of either 12 hours or one third (1/3) of the total hours on the degree plan. The following restrictions apply:
   a. Courses taken in residence at an accredited U.S. institution, or approved international institution with a final grade of B or greater, will be considered for transfer credit if, at the time the courses were completed, the student was in degree-seeking status at Texas A&M University, or the student was in degree-seeking status at the institution at which the courses were taken; and if the courses would be accepted for credit toward a similar degree for students in degree-seeking status at the host institution. Courses previously used for another degree are not acceptable for degree plan credit.
   b. A maximum of 12 credit hours of 489 and/or 689 (Special Topics).
2. A maximum of 8 hours of 691 (Research), 4 hours of 684 (Professional Internship), or 9 hours of 485 and/or 685 (Directed Studies), and up to 3 hours of 690 (Theory of Research) or 695 (Frontiers in Research). Any combination of 684, 685, 690, 691 and 695 may not exceed one-fourth (1/4) of the total credit hour requirement shown on the individual degree plan.
3. A zero credit 684 or 685 course is only allowed for non-thesis option master’s students. A zero credit 681 course can be used for either thesis or non-thesis option master’s students. Other courses, including 691 research hours, are not eligible for zero credit.
4. A maximum of 2 hours of Seminar (481/681).
5. A maximum of 9 hours of advanced undergraduate courses (300- or 400-level).
6. No credit may be obtained by correspondence study. (Courses in the student's degree plan which may be delivered in whole or in part by electronic means are not considered "correspondence study").
7. For graduate courses of three weeks' duration or less, up to 1 hour of credit may be obtained for each five-day week of coursework. Each week of coursework must include at least 15 contact hours.
8. Extension courses are not acceptable for credit.
9. For non-distance degree programs, no more than 50 percent of the credit hours required for the program may be completed through distance education courses.
10. To receive a graduate degree from Texas A&M University, students must earn one-third or more of the credits through the institution's own direct instruction. This limitation also applies to joint degree programs.

Exceptions will only be permitted in unusual cases and when petitioned by the student's advisory committee and approved by the Graduate and Professional School.

Thesis Option

On-Campus and Distance Education Degree Programs

The thesis option is designed to allow the student to demonstrate research capabilities through developing an independent and thorough investigation of a particular problem of interest. This would also prepare the student for further graduate studies. An acceptable thesis is required for the Master of Maritime Business Administration and Logistics degree for students who select the thesis option program. The finished work must reflect a comprehensive understanding of the pertinent literature and express in clear English, the problem(s) for study, the method, and the significance and results of the student's original research. Guidelines for the preparation of the thesis are available in the Thesis Manual which is available online at https://grad.tamu.edu/.

After successful defense (or exemption from) and approval by the student's advisory committee and the Head of the Department of Maritime Business Administration, students must submit their thesis to
the Graduate and Professional School. Students must submit their thesis in electronic format as a single PDF file.

No credit hours of 684 (Professional Internship) may be used for the thesis option for the Master of Maritime Business Administration and Logistics degree. A maximum of 8 credit hours of 691 (Research) or 485 and/or 685 (Directed Studies), and up to 3 credit hours of 690 (Theory of Research) or 695 (Frontiers in Research) may be used toward the thesis option of the Master of Maritime Business Administration and Logistics degree. In addition, any combination of 685, 690, 691 and 695 may not exceed 12 credit hours.

The 36-hour thesis-option curriculum is structured with 21 hours of required courses and 15 hours of optional elective courses of which at least 6 hours are in 691 courses. Additional flexibility to replace required courses targeted to their area of research is available to thesis-option students upon recommendation and approval by their committees and the Head of the Department of Maritime Business Administration.

**Thesis Proposal**

**On-Campus and Distance Education Degree Programs**

For the thesis option, the student must prepare a thesis proposal for approval by the advisory committee and the head of the Department of Maritime Business Administration. This proposal must be submitted to the Graduate and Professional School at least 15 working days prior to the submission of the request for the final examination. There are compliance issues that must be addressed if graduate students are performing research involving human subjects, animals, infectious biohazards and recombinant DNA. Students involved in these types of research should check with the Office of Research Compliance and Biosafety at (979) 458-1467. Call (979) 458-1467 to address questions about all research compliance responsibilities. Additional information can also be obtained on the website rcb.tamu.edu (https://vpr.tamu.edu/research-compliance-and-biosafety/).

**Final Examination/Thesis Defense**

**On-Campus and Distance Education Degree Programs**

This section applies to thesis students only.

A student must pass a final examination by dates announced each semester or summer term in the Graduate and Professional School Calendar. To be eligible to take the final examination, a student's GPA must be at least 3.000 for courses on the degree plan and for all courses completed at Texas A&M which are eligible to be applied to a graduate degree, and there must be no unabsolved grades of D, F or U for any course listed on the degree plan. To absolve a deficient grade, the student must repeat the course at Texas A&M University and achieve a grade of C or better. All coursework on the degree plan must have been completed with the exception of those hours for which the student is registered. For thesis-option students, an approved thesis proposal must be on file in the Graduate and Professional School according to published deadlines prior to the final examination or submission of the request for exemption from the final examination.

A request to hold and announce the final examination must be submitted to the Graduate and Professional School a minimum of 10 working days in advance of the scheduled date for the examination. The Graduate and Professional School must be notified in writing of any cancellations. A student may be given only one opportunity to repeat the final examination for the master’s degree and that must be within a time period that does not extend beyond the end of the next regular semester (summer terms are excluded).

For thesis option students, the final examination covers the thesis and all work taken on the degree plan and at the option of the committee may be written or oral or both. The final examination may not be administered before the thesis is available to all members of the student’s advisory committee in substantially final form, and all members have had adequate time to review the document. The examination is conducted by the student's advisory committee as finally constituted. A thesis option student must be registered in the University in the semester or summer term in which the final examination is taken. Persons other than members of the graduate faculty may, with mutual consent of the candidate and the major professor, attend final examinations for advanced degrees. Upon completion of the questioning of the candidate, all visitors must excuse themselves from the proceedings. A positive vote by all members of the graduate committee with at most one dissension is required to pass a student on his or her exam. A department, or interdisciplinary degree program, may have a stricter requirement provided there is consistency within all degree programs within a department or interdisciplinary degree program.

The Report of the Final Examination Form must be submitted with original signatures of only the committee members approved by the Graduate and Professional School. If an approved committee member substitution (1 only) has been made, his/her signature must also be submitted to the Graduate and Professional School. If necessary, multiple copies of the form may be submitted with different committee member original signatures. If an approved committee member substitution (1 only) has been made, his/her signature must be included on the form submitted to the Graduate and Professional School.

**Non-Thesis Option**

**On-Campus and Distance Education Degree Programs**

A final examination is not required for the non-thesis option.

**Juris Doctor**

**Program Requirements**

The JD degree is conferred on students who satisfactorily complete a minimum of 90 credit hours with a cumulative grade point of 2.33 or better. In addition, each student must complete an upper-level rigorous writing requirement, a six-hour experiential requirement, and a 30-hour pro bono requirement. Students must complete their degree requirements within 72 months of starting law school.

**Degree Plan**

The combined degree program includes a total of 126 hours without duplication of credits. The Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree. The School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree. However, in combination, a student may not apply more than 15 hours to both degrees. All courses in the MBAA degree program are offered as distance education courses. Students in the JD program may take up to 30 hours of distance education credits towards the JD degree.

Below is the degree plan for the JD/MBAA combination degree program.

</table>

1. Students must successfully complete a minimum of six credit hours in one or more upper-level experiential courses. As part of the six credit hours, the student must successfully complete an approved externship or a clinic that involves advising or representing one or more actual clients or serving as a third-party neutral. An experiential course must be a simulation course, a law clinic, or a field placement.

2. One LARW III course is required.

3. Courses satisfying learning objectives for both degrees can count toward the completion of both degrees provided that (1) the Department of Maritime Business Administration will accept up to 9 hours of credit in professional law courses toward the MBAA degree; (2) the School of Law will accept up to 15 hours of credits in maritime business administration graduate courses toward the JD degree; and (3) in combination, a student may not apply more than 15 hours to both degrees. The initial list of courses that will count towards both the JD degree and the MBAA degree include LAW 7056, LAW 7222, LAW 7339, LAW 7371, LAW 7707S, LAW 7835 (if satisfies MBAA requirements for practical experience) and other LAW electives with MBAA Advisor approval; MARA 625, MARA 604, MARA 645, MARA 672, and MARA 675 (if it satisfies JD requirements for practice experience).
