

GENETICS - BS

Curriculum in Genetics is administered by the Department of Biochemistry and Biophysics.

Genetics is one of the most exciting, rapidly expanding areas in the life sciences. More than an independent discipline, it has become the basis for understanding many aspects of medical and agricultural systems, animal and plant diseases, and even animal behavior. Developments in molecular genetics have provided biotechnologies that will dramatically affect our lives from the improved diagnosis of human disease, to the production of viral-resistant crops, to environmental cleanup.

The undergraduate curriculum in genetics allows the study of several different aspects of genetics, including population genetics, human genetics and genetic engineering. The genetics major is designed to develop the knowledge and skills necessary for advanced studies in all disciplines related to life sciences from medicine/veterinary medicine to genetic engineering. This basic science curriculum also has enough flexibility to allow a student to prepare for such diverse careers as forensics, medicine, business or law.

Program Requirements

First Year

Fall		Semester Credit Hours
CHEM 119	Fundamentals of Chemistry I	4
ENGL 104	Composition and Rhetoric	3
GENE 101/ BICH 101	Perspectives in Biochemistry and Genetics	1
MATH 151 or MATH 171	Engineering Mathematics I or Calculus I	4
University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ¹		3
Semester Credit Hours		15

Spring

BIOL 111	Introductory Biology I	4
CHEM 120	Fundamentals of Chemistry II	4
MATH 152 or MATH 172	Engineering Mathematics II or Calculus II	4
Select one of the following:		3
ENGL 203	Writing about Literature	
ENGL 210	Technical and Professional Writing	
COMM 203	Public Speaking	
COMM 205	Communication for Technical Professions	
Semester Credit Hours		15

Second Year

Fall		Semester Credit Hours
BIOL 112	Introductory Biology II	4
CHEM 227	Organic Chemistry I	3
CHEM 237	Organic Chemistry Laboratory	1
PHYS 201	College Physics	4
STAT 211	Principles of Statistics I	3
Semester Credit Hours		15

Spring

CHEM 228	Organic Chemistry II	3
CHEM 238	Organic Chemistry Laboratory	1
GENE 302	Principles of Genetics	3
GENE 314	Principles of Genetics Laboratory	1
PHYS 202	College Physics	4
STAT 212	Principles of Statistics II	3
Semester Credit Hours		15

Third Year

Fall		Semester Credit Hours
BICH 409	Principles of Biochemistry ²	3
BIOL 351	Fundamentals of Microbiology	4
GENE 491	Research	2
STAT 404	Statistical Computing	3
University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ¹		3
General elective ³		2
Semester Credit Hours		17

Spring

GENE 412	Population, Quantitative and Ecological Genetics	3
GENE 431/ BICH 431	Molecular Genetics	3
GENE 491	Research ⁴	2
University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ¹		6
Genetics elective ⁵		3
Semester Credit Hours		17

Fourth Year

Fall		Semester Credit Hours
BICH 450/ BIOL 450	Genomics	4
GENE 419/ BICH 419	Computational Techniques for Evolutionary Analysis	3
GENE 432/ BICH 432 or BICH 414	Laboratory in Molecular Genetics or Biochemical Techniques I	2
University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ¹		3
Semester Credit Hours		12

Spring

University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ¹		6
Genetics elective ⁵		3
General elective ³		5
Semester Credit Hours		14
Total Semester Credit Hours		120

¹ To be selected from the University Core Curriculum. Of the 21 hours shown as University Core Curriculum courses, 3 must be from Language, Philosophy and Culture (<http://catalog.tamu.edu/>)

undergraduate/general-information/university-core-curriculum/);
3 from Creative Arts (<http://catalog.tamu.edugened:creative-arts>);
3 from Social and Behavioral Sciences (<http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/>);
and the American History (<http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/>) requirements if they are also on the approved list of International and Cultural Diversity (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/international-cultural-diversity-requirements/>)/Cultural Discourse (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/cultural-discourse-requirements/>) courses.

² Before Registration in BICH 409, students must have attained a grade of C or better in the following courses: CHEM 227, CHEM 237, CHEM 228, and CHEM 238.

³ Often used for a minor. Students intending to pursue and advance degree in Genetics are strongly urged to use some General Electives for additional upper division courses in GENE, BICH, BIOL, CHEM, MATH or STAT. General Electives may be any course numbered 100-499 that is not used elsewhere (Except: BICH 303, BICH 410, BICH 411, BICH 412, BICH 440, BICH 441; MATH 100-104 (<http://catalog.tamu.edu/undergraduate/course-descriptions/math/>), MATH 130-148 (<http://catalog.tamu.edu/undergraduate/course-descriptions/math/>)).

⁴ The fourth registered hour of research must be taken as Writing Intensive.

⁵ Hours to be selected from any 400-level course in GENE with approval of student's Academic Advisor. Excludes: BICH 409, BICH 410, BICH 411, BICH 414, BICH 431/GENE 431, BICH 432/GENE 432, BICH 440, BICH 491, GENE 412, GENE 419/BICH 419, GENE 491.

Students must make a grade of C or better in all major coursework used to satisfy the degree plan.
