

ENTOMOLOGY - BS

Entomology is a basic and applied science of insects and their relatives such as ticks and mites. Insects are one of the most numerous and diverse forms of life on earth; they are essential constituents of virtually every terrestrial and aquatic ecosystem. While society benefits from the diverse roles played by insects, some species may become limiting factors in the production, processing and storage of our food and fiber crops, and to the health and well being of humans and animals. The knowledge and skills possessed by entomologists are essential components of modern integrated pest management strategies designed to safely and efficiently produce adequate food supplies for a continuously expanding world population, and to impede the transmission of insect-borne diseases, while at the same time protecting our endangered species and fragile ecosystems.

The Bachelor of Science degree in Entomology prepares students for career paths with strong employment demands among corporate and private agribusiness; urban pest management companies; scientific and technical organizations; public health agencies; local, state and federal governments; and international organizations. Employment opportunities exist in areas such as forensic entomology, conservation biology, environmental quality, food quality, regulatory inspection, public health and more. Our curriculum is sufficiently flexible such that students, in consultation with an academic advisor, may tailor the degree to meet their individual academic goals, including requirements for graduate studies and professional schools in health career areas (medical, veterinary, dental) as well as providing analytical skills needed for law school.

Students majoring in areas such as agronomy, animal science, horticulture, biology, genetics and biomedical sciences may wish to augment their knowledge and broaden their career opportunities by earning either a double major or a minor in entomology. Students interested in a double major or minor in entomology should contact an academic advisor for additional information.

Program Requirements

First Year

Fall		Semester Credit Hours
AGLS 101 or ENTO 101	Modern Agricultural Systems and Renewable Natural Resources or Introduction to Academic Success in Entomology	1
BIOL 111	Introductory Biology I	4
CHEM 119	Fundamentals of Chemistry I	4
ENTO 201	General Entomology	3
MATH 140	Mathematics for Business and Social Sciences	3
Semester Credit Hours		15
Spring		Semester Credit Hours
BIOL 112	Introductory Biology II	4
CHEM 120	Fundamentals of Chemistry II	4
MATH 142 or PHIL 240	Business Calculus or Introduction to Logic	3

Communication (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#communication)	3

Third Year

Fall		Semester Credit Hours
ENTO 306	Insect Structure and Function	4
Technical electives ²		7
General elective		3

Semester Credit Hours 14

Spring

ENTO 301	Biodiversity and Biology of Insects	4
ENTO 424	Insect Ecology	3
ENTO 481	Seminar	1
GENE 301 & GENE 312	Comprehensive Genetics and Comprehensive Genetics Laboratory	4
Creative arts (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/#creative-arts) ¹		3

Semester Credit Hours 15

Fourth Year

Fall		Semester Credit Hours
ENTO 428	Insect Biotechnology	3
ENTO 429	Insect Biotechnology Laboratory	1
Technical electives ²		7

General elective	5
Semester Credit Hours	16
Spring	
ENTO 435 Case Studies in Problem Solving	3
ENTO 484 Professional Internship or ENTO 491 or Research	2
Technical electives ²	6

Semester Credit Hours	16
Total Semester Credit Hours	120

¹ To be selected in consultation with student's academic advisor in the department. Three hours of international and cultural diversity (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/international-cultural-diversity-requirements/>) electives and three hours of cultural discourse (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/cultural-discourse-requirements/>) are required for graduation; these courses may fulfill other degree requirements as well. See the list of approved courses.

² Technical electives must be selected in consultation with the student's advisor or from the current list of approved electives published by the department. See Technical Electives table.

Additional Requirements for a Baccalaureate Degree

- Foreign Language (two years of the same language in high school OR one year/two semester sequence in college)
- Writing Intensive Courses (two courses designated W in major or one W and one C course in major)
- International and Cultural Diversity Courses (three credit hours)
- Cultural Discourse Course (three credit hours)
