

LANDSCAPE MANAGEMENT - CERTIFICATE

The Landscape Management Certificate, offered by the Department of Horticultural Sciences, provides a concentrated study in landscape construction, maintenance, and business operations. The certificate offers specialized knowledge and skills, professional advancement opportunities, or a pathway to further education to those interested in landscape management. The certificate is open to all majors with an overall Texas A&M University GPA of 2.0 or higher. However, students should consult their academic advisor before submitting their application to the Landscape Management Certificate program.

Program Requirement

Code	Title	Semester Credit Hours
