DEPARTMENT OF RANGELAND, WILDLIFE, AND FISHERIES MANAGEMENT

The Department of Rangeland, Wildlife and Fisheries Management uses the latest in the ecological and management disciplines to provide the most diverse and progressive education available in the conservation of the earth's natural resources. Students in this department are making contributions on solutions to solving problems associated with wildlife recreational uses, food production from aquaculture, environmental education, wildlife management, and urban wildlife and fisheries recreational activities. Our students are focused on contributing to the development of solutions related to: invasive species, wildlife habitat, grazing management, rangeland watersheds, the human dimensions of natural resource management and policy, and many other issues.
