METEOROLOGY - 5-YEAR BACHELOR OF SCIENCE AND MASTER OF OCEAN SCIENCE AND TECHNOLOGY

The combined program offers motivated and exceptional students the opportunity to achieve aspirations in an efficient program at Texas A&M, completing both the Bachelor of Science degree in the Department of Atmospheric Sciences Meteorology Program and the Master of Ocean Science and Technology degree in 5 years. The concurrent degree program will enable these motivated students to coordinate the required BS coursework and Master of Ocean Science and Technology coursework to complete the required credit hours for each degree without diminishing scope or quality of work and within 5 years.

Application and Eligibility

- Applications to the combined program will be submitted by June 15 after the completion of the student’s junior year. Applications submitted after that time will be evaluated on a case by case basis. GRE scores are not required for admission to the program.
- Applicants must have a minimum undergraduate GPA of 3.25. Applicants should also earn a C or better in all Chemistry, Calculus and Physics courses. Once admitted to the program, students must maintain a minimum 3.0 GPA on all graduate coursework.
- A faculty advisor will be assigned to each student. Students may seek additional mentors, but a formal committee is not required.
- Students admitted into the combined program must finish the entire 150 credit hours to obtain both the Bachelor’s and Master’s degrees. Students will graduate at the completion of the 5th year in the combined program coursework (150 credit hours) with both Bachelor’s and Master’s degrees.
- Students admitted to the program will change from U4 to G7 status when they are admitted having completed at least 90 hours (end of spring semester, year 3).
- Students not accepted or not allowed to continue with the combined program will complete the 120-hour Bachelor’s degree under the standard 4 year curriculum. These students may still apply to the traditional graduate program.

A grade of C or better is required.

1. A grade of C or better is required.
2. Select in consultation with faculty academic advisor. Select from ATMO 300-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/atmo/), except ATMO 321; GEOG 400-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/geog/); GEOS 400-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/geos/); MATH 311, MATH 400-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/math/); OCNG 400-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/ocng/). Up to 3 hours may be ATMO 484-Broadcast Internship and up to 6 hours may be ATMO 484-NWS Internship. SCSC 301; BESC 403; BIOL 111; CHEM 227, CHEM 237; ECCB 308, ECCB 309. Only 6 hours of 484 and 491 courses may apply towards this requirement.
3. If students use nine credits of allowed OCNG courses (e.g. OCNG 251, OCNG 252, OCNG 350, OCNG 451, OCNG 485) as technical electives and general electives, they will receive an OCNG minor with their BS in METR degree.
4. Students will not be permitted to receive credit for both undergraduate-level and graduate-level versions of stacked courses because the content and learning outcomes are too similar (e.g. OCNG 404/OCNG 604; OCNG 456/OCNG 656). General electives may not include ENGL 103; KINE 198-199 (http://catalog.tamu.edu/undergraduate/course-descriptions/kine/); MATH 102, MATH 131, MATH 141-142 (http://catalog.tamu.edu/undergraduate/course-descriptions/math/); MATH 150-152 (http://catalog.tamu.edu/undergraduate/course-descriptions/math/); MATH 171-172 (http://catalog.tamu.edu/undergraduate/course-descriptions/math/); MATH 221, MATH 251, MATH 253; PHYS 101, PHYS 201-202 (http://catalog.tamu.edu/undergraduate/course-descriptions/phys/); PHYS 208, PHYS 218-219 (http://catalog.tamu.edu/undergraduate/course-descriptions/phys/); AERS 100-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/aers/); MLSC 100-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/mlsc/); NVSC 100-499 (http://catalog.tamu.edu/undergraduate/course-descriptions/nvsc/); SOMS 100-499. (http://catalog.tamu.edu/undergraduate/course-descriptions/soms/)
5. MLSC, NVSC and AERS courses can be used as general electives if a minor is completed in Military Science. See an academic advisor for more information.
6. All students enter as Lower Level Meterology (METL) until completion of ATMO 335 and ATMO 336 and the associated prerequisite courses. Once students have completed these courses, their major will be changed to Upper Level Meteorology (METR), and they will be eligible to take upper-level electives. This change should occur following Fall of the junior year.
7. Two graduate courses will be taken for dual undergraduate/graduate credit and will contribute to the technical electives.

The program includes a total of 156 hours with 6 hours being applied toward both the Bachelor of Science in Meteorology and the Master of Ocean Science and Technology.
