

ACCOUNTING - BBA

A Bachelor of Business Administration (BBA) degree from an AACSB-Accredited (Association to Advance Collegiate Schools of Business) Accounting program prepares students for careers that offer numerous opportunities for growth and development. This degree program provides the minimum credentials necessary for entry into most accounting careers. However, the BBA degree does not meet the requirements to sit for the CPA examination in Texas. More details about CPA licensure requirements as they relate to our degree programs may be found on our departmental catalog page here (<http://catalog.tamu.edu/undergraduate/business/accounting/>).

Many accounting graduates are employed by public accounting firms that provide assurance, tax and other services to all types of organizations. Other accounting graduates pursue careers with business firms and financial institutions, within all levels of government, and as accounting educators.

Upper Level Entry Requirements

Admission to the upper level major of accounting requires satisfactory completion of specific coursework. To review requirements and application procedures see Upper-Level Entry Requirements and Application Procedures (<http://catalog.tamu.edu/undergraduate/business/>).
