¹ Students may use another course in lieu of the course listed if approved by an Internal Audit Program Director in advance of the student registering for the course.

² An internship experience is required for the certificate and will be documented through registering and completing an internship course. If the student pursues an internship and earns less than three credit-hours in their internship course, an additional elective must be taken. Completing less than three credit-hours for the internship course and the selection of the appropriate elective must be approved in advance of registering for either course by an Internal Audit Program Director. At least 15 credit hours must be taken to earn the certificate.
