DIVE 250 SCUBA Diving I  
Credits: 4. 3 Lecture Hours. 3 Lab Hours.  
Fundamental academic knowledge and practical application of SCUBA diving practices and theory; introduction to diving tables and diving physiology.  
Prerequisite: Must complete a medical statement showing no contraindications to diving, or have a recreational SCUBA diver’s physical examination.

DIVE 251 SCUBA Diving II  
Credits: 3. 2 Lecture Hours. 2 Lab Hours.  
Methods to promote safe, self-reliant diving and improve the diver’s comfort, coordination and strength in the water; to build competency in dive planning and organization.  
Prerequisite: Must complete a medical statement showing no contraindications to diving, or have a recreational SCUBA diver’s physical examination; open water certification from a nationally recognized agency; Divers Alert Network (DAN) insurance or equivalent.

DIVE 260 Scuba Diving III  
Credits: 4. 3 Lecture Hours. 3 Lab Hours.  
Methods to promote safe, self-reliant diving and improve the diver’s comfort, coordination and strength in the water; build competency in dive planning and organization; practice accident prevention and effective accident management.  
Prerequisite: Must complete a medical statement showing no contraindication to diving or have a recreational scuba diver’s physical examination; open water certification from a nationally recognized training agency; Diver’s Alert Network (DAN) diving accident insurance or equivalent.

DIVE 330 Rescue Diving  
Credits: 3. 2 Lecture Hours. 2 Lab Hours.  
Relates skills necessary to perform basic life support, administer dive first aid, evacuate victim, assist and rescue other divers in water; illustrate proper dive planning; practice accident prevention and effective accident management.  
Prerequisite: Must complete a medical statement showing no contraindications to diving, or have a recreational SCUBA diver’s physical examination; certification as a SDI SCUBA diver or equivalent; Divers Alert Network (DAN) diving accident insurance or equivalent.

DIVE 331 Alternative Diving Technology  
Credits: 3. 2 Lecture Hours. 2 Lab Hours.  
Illustrates the realities of operating in the scientific, public safety and military diving disciplines; practice real world training scenarios involving multiple aspects of each of the three fields.  
Prerequisite: Must complete a medical statement showing no contraindications to diving, or have a recreational SCUBA diver’s physical examination (or AAUS physical if rating with AAUS); certification as an Advanced and Rescue Diver or equivalent; Divers Alert Network (DAN) diving accident insurance or equivalent; junior or senior classification or approval of instructor.

DIVE 357 Dive Leadership – Divemaster  
Credits: 4. 3 Lecture Hours. 3 Lab Hours.  
Examines divemaster level dive knowledge, dive leadership theory and application, presentation and instructional skills, physical diving skills, logistics and planning, risk management and emergency response, and operational execution; develops a multi-environment capable diving leader.  
Prerequisites: Minimum of 18 years of age; current certification in NAUI First Aid for Dive Professionals or Equivalent; current certification in NAUI Oxygen Provider or equivalent; a minimum of verifiable 60 logged open water scuba dives with a minimum of 30 hours bottom time, dives shall be varied in environment, depth, and activities; verification of good physical condition as documented by a medical examination and unconditional approval in the last 12 months; water skills and ability equivalent to that of a NAUI Assistant Instructor; must be certified as a NAUI Master Scuba Diver, NAUI Scuba Rescue Diver, NAUI Advanced Open Water Diver and NAUI Nitrox diver, or their equivalent; divers with evidence of equivalent training experience must pass the NAUI Master Scuba DIVE exam prior to beginning of the course; junior or senior classification or approval of instructor.

DIVE 410 AAUS Scientific Diving  
Credits: 4. 3 Lecture Hours. 3 Lab Hours.  
Information and training necessary to qualify as Scientific Divers under the auspices of American Academy of Underwater Sciences and the Scientific Diving Program; implementation of project design, advanced study of diving physics and physiology, diving risk management and risk mitigation.  
Prerequisites: Must have a current Science Diving physical examination; Master Level Diver’s Alert Network (DAN) diving accident insurance or equivalent; open water, advanced open water certifications and Nitrox, or approval of instructor; current certification in First Aid, AED, CPR and Emergency Oxygen Administration; Scientific Diving Swim Test.

DIVE 489 Special Topics In...  
Credits: 0 to 4. 0 to 4 Other Hours.  
Selected topics in an identified area of diving technology and methods.  
Prerequisite: Junior or senior classification or approval of instructor.
