ENGR - ENGINEERING (ENGR)

ENGR 101 Energy: Resources, Utilization and Importance to Society
Credits 4. 3 Lecture Hours. 2 Lab Hours.
Introductory course about current and potential energy sources, the link
between energy and wealth, and the consequences of action or inaction
concerning energy and the environment.

ENGR 102 Engineering Lab I - Computation
Credits 2. 1 Lecture Hour. 3 Lab Hours.
Introduction to the design and development of computer applications
for engineers; computation to enhance problem solving abilities; basic
concepts of software design through the implementation and debugging
of student-written programs; introduction to engineering majors, career
exploration, engineering practice within realistic constraints, e.g.
economic, environmental, ethical, health and safety, and sustainability;
pathways to success in engineering.
Prerequisite: Grade of C or better in MATH 151 or MATH 150, or
concurrent enrollment; admission to the college of engineering.

ENGR 111 Foundations of Engineering I
Credits 2. 1 Lecture Hour. 3 Lab Hours.
(ENGR 1201) Foundations of Engineering I. Introduction to the
engineering profession, ethics, and disciplines; development of skills
in teamwork, problem solving and design; other topics depending
on the major include emphasis on computer applications and
programming, visualization and CAD tools, introduction to electrical
circuits, semiconductor devices, digital logic, communications and their
application in systems; Newton's laws, unit conversions, statistics,
computers, Excel; basic graphics skills; visualization and orthographic
drawings.
Prerequisite: MATH 150 or MATH 151, or concurrent enrollment;
admission to the College of Engineering; also taught at Galveston
campus.

ENGR 112 Foundations of Engineering II
Credits 2. 1 Lecture Hour. 3 Lab Hours.
Continuation of ENGR 111. Topics include, depending on the major,
emphasis on computer applications and programming and solids
modeling using CAD tools or other software; fundamentals of engineering
science; advanced graphic skills.
Prerequisite: ENGR 111; MATH 151 or concurrent enrollment; admission
to the College of Engineering; also taught at Galveston campus.

ENGR 181 Engineering Honors Seminar I
Credit 1. 1 Lecture Hour.
Co-curricular experiences related to academic success, undergraduate
research and service in preparation for careers in research and
technology leadership.
Prerequisites: Admitted to engineering honors; freshman or sophomore
classification.

ENGR 216/PHYS 216 Experimental Physics and Engineering Lab II -
Mechanics
Credits 2. 1 Lecture Hour. 3 Lab Hours.
Description and application of laws of physical motion to the solution
of science and engineering problems; using sensing, control and
actuation for experimental verification of physics concepts while solving
engineering problems.
Prerequisites: Grade of C or better in MATH 151 or MATH 171 or
equivalent; grade of C or better in ENGR 102; grade of C or better and
concurrent enrollment in PHYS 206; also taught at Galveston campus.
Cross Listing: PHYS 216/ENGR 216.

ENGR 217/PHYS 217 Experimental Physics and Engineering Lab III -
Electricity and Magnetism
Credits 2. 1 Lecture Hour. 3 Lab Hours.
Electromagnetism and electromechanical systems; use of sensing,
control and actuation to demonstrate key physical relationships through
the transducer relationships linking pressure, temperature and other
physical stimuli to changes in electric and magnetic fields.
Prerequisites: Grade of C or better in MATH 152 or MATH 172, or
equivalent; grade of C or better in PHYS 206 or equivalent; grade of C
or better in PHYS 216/ENGR 216 or ENGR 216/PHYS 216; grade of C or
better and concurrent enrollment in PHYS 207; also taught at Galveston
campus.
Cross Listing: PHYS 217/ENGR 217.

ENGR 251 Creating a Self-Aware Leader
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Fundamentals of engineering leadership and business; organizational
dynamics; self-awareness.
Prerequisites: Grade of C or better in ENGR 102, and ENGR 216/PHYS 216
or PHYS 216/ENGR 216; acceptance into the Zachry Leadership Program.

ENGR 260 Engineering Creativity
Credits 2. 2 Lecture Hours.
Designed to provide opportunities to gain knowledge and skills
in the areas of creativity, innovation and design thinking through
interdisciplinary team design projects and development of rough
prototypes.
Prerequisites: ENGR 111 and ENGR 112, or concurrent enrollment.

ENGR 262 Engineering Entrepreneurship Hour
Credit 1. 1 Lecture Hour.
Engagement with successful technology entrepreneurs from technical
sectors across engineering and the nation; challenges faced by and
characteristics of successful entrepreneurs and their strategies in
launching and sustaining businesses on technology innovation; network
with highly successful entrepreneurs and develop relations valuable to
professional careers; development of speaking and presentation skills;
networking with industry professionals in support of entrepreneurship.
Prerequisites: Freshman or sophomore classification in College of
Engineering.

ENGR 270 Engineering Projects in Community Service
Credit 1. 1 Lecture Hour.
Project course using team approach to engage students in open-ended
community service projects involving non-profit agencies; includes
project management, understanding the complete design process,
awareness of the customer in engineering design, and the ability to
communicate effectively. May be taken six times for credit.
Prerequisites: ENGR 102 or approval of instructor; freshman or
sophomore classification in an engineering major.

ENGR 281 Engineering Honors Mentoring and Team Building Seminar
Credits 0-1. 0-1 Other Hours.
Selected topics related to peer mentoring and team building while
participating in co-curricular activities; emphasis on building supportive
relationships on campus; provides practical experience in being a
member of a project involving campus or community-based engagement;
for those serving as a Coach (i.e., student leader providing light
mentoring to the residents) in the Engineering Honors Living Learning
Community (Engineering Honors Community of Scholars or ECOS).
Prerequisites: Appointment to be a Coach in ECOS; approval of instructor.
ENGR 285 Directed Studies
Credits 0 to 4. 0 to 4 Other Hours.
Special problems in any area of engineering.
**Prerequisites:** Freshman or sophomore classification; approval of department head.

ENGR 289 Special Topics in...
Credits 0 to 4. 0 to 4 Lecture Hours. 0 to 4 Lab Hours.
Selected topics in an identified area of engineering. May be repeated for credit.
**Prerequisite:** Approval of instructor.

ENGR 301 College of Engineering Study Abroad
Credits 0 to 18. 0 to 18 Other Hours.
For students in approved programs abroad. May be repeated for credit.
**Prerequisites:** Admission to approved program; approval of study abroad coordinator.

ENGR 302 Credits 0.

ENGR 311 Enterprise Basics for Technical Entrepreneurs
Credits 3. 3 Lecture Hours.
Aspects of entrepreneurship for a technical enterprise; elements of a business including idea generation, startup financing, staffing, product design and production, marketing and selling a product; focus on the front end of the venture; product design and development, financing, identifying and attracting key personnel, and starting up company.
**Prerequisites:** Admission to the college of engineering.

ENGR 312 Sales, Operations and Manufacturing for Technology Companies
Credits 3. 3 Lecture Hours.
Challenges faced in a start-up entity with respect to product manufacturing, operations and supply chain management, product pricing strategies, and sales and marketing; focus on small start-up to young mid-size enterprises.
**Prerequisites:** Junior or senior classification in the college of engineering.

ENGR 350 Leading for Impact in Engineering, Business and Society
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Fundamental leadership and business topics relevant to engineering and technical careers; business model development; business strategy; leadership theory; empathy.
**Prerequisites:** Grade of C or better in ENGR 251; acceptance into the Zachry Leadership Program; junior or senior classification or approval by instructor.

ENGR 351 The Role of Engineering and Business in Society
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Exploration of engineering and business contributions to society; political, cultural, societal and economic forces’ impact on engineering; using creativity and imagination to solve engineering and societal challenges.
**Prerequisites:** Acceptance into the Zachry Leadership Program; ENGR 350; junior or senior classification or approval by instructor.

ENGR 352 Credits 0.

ENGR 399 Engineering Honors
Credits 0. 0 Other Hours.
Participation in an approved high-impact learning practice within the Engineering Honors (EH) program which includes the EH Living Learning Community (ECOS); reflection on professional outcomes; documentation and self-assessment of learning experience.

ENGR 400 Interdisciplinary Design
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Instruction and practice in the design process applied to an interdisciplinary design project including establish the customer need; determine requirements in terms of function (what) and performance (how well); develop alternative design concepts; perform trade-off studies among performance, cost and schedule; embodiment and detail design; iterate the above steps; major interdisciplinary design project.
**Prerequisites:** Senior classification and approval of instructor.

ENGR 401 Interdisciplinary Design II
Credits 3. 2 Lecture Hours. 3 Lab Hours.
Product detail and design development process including case studies; may include project management, marketing considerations, manufacturing detailed design specifications; failure modes, applications of codes and standards, selection of design margins; product (component) development guidelines; intellectual property, product liability and ethical responsibility.
**Prerequisites:** ENGR 401; junior or senior classification.

ENGR 410 Global Engineering Design
Credits 0 to 3. 0 to 3 Lecture Hours.
Intercultural models and their application to engineering design in diverse, multinational and multidisciplinary settings; engineering design project working in international teams of students, faculty and industry experts; applying engineering skills to the project; includes the study and application of intercultural models, global enterprise fundamentals and remote collaboration technologies; required for the International Engineering Certificate.
**Prerequisite:** Junior or senior classification or approval of instructor.
ENGR 421 Technology Company Management, Leadership, and Corporate Culture
Credits 3. 3 Lecture Hours.
Strategic challenges associated with enterprise management and leadership; establishing and maintaining a sustainable brand; developing an effective corporate culture; dealing with global competition; case studies in strategic thinking.
Prerequisites: Junior or senior classification in the college of engineering.

ENGR 450 Finding Your Leadership Qualities
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Exploration of personal leadership qualities and perspective; case studies in leadership in engineering enterprises; business etiquette and personal marketing.
Prerequisites: Grade of C or better in ENGR 351; acceptance into the Zachry Leadership Program; junior or senior classification or approval by instructor.

ENGR 451 Leading for a Lifetime: Continual Learning and Influence
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Intersection of engineering, business, citizenship and leadership.
Prerequisites: Grade of C or better in ENGR 450; acceptance into the Zachry Leadership Program; junior or senior classification or approval by instructor.

ENGR 454 Engineering Product Lean Launch
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Exercises in the creation of an engineering-centric business using lean startup principles; customer and market validation; value proposition creation; minimum viable product (MVP) development; customer value chain discovery; communication skill training; development of a business model canvas for a student-developed engineering product business idea.
Prerequisite: Junior or senior classification in the College of Engineering.

ENGR 455 Engineering Entrepreneurship Hour
Credit 1. 1 Lecture Hour.
Designed to engage with successful technology entrepreneurs from across the nation; learn about the characteristics of successful entrepreneurs and their strategies in launching and sustaining businesses on technology innovation; network with highly successful entrepreneurs and develop relations valuable to professional careers.
Prerequisites: Junior or senior classification or approval of instructor.

ENGR 456 Engineering Projects in Community Service
Credits 1 to 2. 1 to 2 Other Hours.
Project course using team approach to engage students in open-ended community service projects involving non-profit agencies; includes project management, understanding the complete design process, awareness of the customer in engineering design, and the ability to communicate effectively. May be taken six times for credit.
Prerequisites: ENGR 111 or approval of instructor; junior or senior classification in an engineering major.

ENGR 482/PHIL 482 Ethics and Engineering
Credits 3. 2 Lecture Hours. 2 Lab Hours.
Development of techniques of moral analysis and their application to ethical problems encountered by engineers, such as professional employee rights and whistle blowing; environmental issues; ethical aspects of safety, risk and liability and conflicts of interest; emphasis on developing the capacity for independent ethical analysis of real and hypothetical cases.
Prerequisite: Junior classification.
Cross Listing: PHIL 482/ENGR 482.
