#### Biomechanics Area

**Required courses:**
- BMEN 343 Biomedical Engineering Materials
- BMEN 361 Biomedical Engineering Mechanics

**Select two of the following:**
- BMEN 432 Molecular and Cellular Biomechanics
- BMEN 457 Orthopedic Biomechanics
- BMEN 458 Motion Biomechanics
- BMEN 461 Cardiac Mechanics
- BMEN 463 Soft Tissue Mechanics and Finite Element Methods
- MEEN 363 Dynamics and Vibrations
- MEEN 368 Solid Mechanics in Mechanical Design

#### Cellular and Molecular Bioengineering

**Required courses:**
- BMEN 344 Biological Interactions and Testing
- BMEN 431 Biomolecular Engineering

**Select two of the following:**
- BMEN 432 Molecular and Cellular Biomechanics
- BMEN 480 Biomedical Engineering of Tissues
- BMEN 486 Biomedical Nanotechnology
- BMEN 487 Drug Delivery
- ECEN 414 Biosensors

#### Computational Bioengineering

**Required courses:**
- BMEN 321 Circuits, Signals, and Systems
- BMEN 401 Principles and Analysis of Biological Control Systems

**Select two of the following:**
- BMEN 463 Soft Tissue Mechanics and Finite Element Methods
- BMEN 471 Numerical Methods in Biomedical Engineering
- MEEN 442 Computer Aided Engineering
- MEEN 444 Finite Element Analysis in Mechanical Engineering

#### Imaging and Photonics

**Required courses:**
- BMEN 311 Imaging Living Systems

### Total Semester Credit Hours

15
Students must select courses exclusively from one of the seven areas represented and not mixed.

Students must be admitted to a degree sequence in the College of Engineering or to the degree sequence in Biological and Agricultural Engineering. Students should know that all tracks require completion of math through Differential Equations (MATH 308). Students may use no more than 6 hours from their home department to satisfy minor requirements. All substitutions must be approved by the BMEN academic advisor and director. Applications are available in the Biomedical Engineering Advising Office and will be reviewed on a competitive basis at the end of every fall and spring semester.
