Chemical engineering is a broad field of engineering and thus requires a diverse preparation in science and engineering. Distinguishing chemical engineering from other engineering disciplines is its use of chemical and biochemical reactions to produce products and materials for society. Traditionally, chemical engineers have provided leadership in the petrochemical, refining, chemical, polymer, and food processing industries. Because of strengths in the foundation sciences of mathematics, chemistry, physics and biology, as well as in engineering, this leadership role has now extended to the biochemical, biomedical, high-tech materials, semi-conductor and microelectronics, nanotechnology, environmental quality, safety, and a host of other areas. Chemical engineers have consistently commanded starting salaries among the highest of all college graduates because of the combined breadth and depth of their education.

The mission of the Artie McFerrin Department of Chemical Engineering at Texas A&M is to educate and prepare students for national and international leadership roles in industry, government, and academia; to attract top students to chemical engineering; to define and develop new directions in chemical engineering fundamentals and practices, and in chemical engineering education and curricula; to be a valuable resource and service base to the State and to industry; and to provide leadership in solving problems of social and economic importance.

Objectives of the chemical engineering program are that

1. graduates will have successful chemical engineering careers in industry, academia or government,
2. graduates will obtain, apply and transfer knowledge across disciplines and into emerging areas of chemical engineering and related fields,
3. graduates will communicate effectively, be leaders in their fields and work competently in interdisciplinary teams, and
4. graduates will be professionally responsible and ethical and engage in professional activities to impact the society on a global scale.

To supplement coursework, well-equipped laboratories provide our students with experiences in operating and analyzing a variety of unit operations and process control equipment and in the use of the modern computational tools and software used in chemical engineering. The department offers vibrant undergraduate research, co-op and study abroad programs that provide students with additional enrichment and experiential opportunities.

The undergraduate program in Chemical Engineering at Texas A&M University is accredited by the Engineering Accreditation Commission of ABET, www.abet.org, and compares favorably with the best in the nation.

Before commencing course work in the major, students must be admitted to the major or have the approval of the department.
Isdale, Charles E, Senior Lecturer  
Chemical Engineering  
MBA, Southern Illinois University at Edwardsville, 1977

Jayaraman, Arul, Professor  
Chemical Engineering  
PHD, University of California at Irvine, 1998

Jeong, Hae-Kwon, Professor  
Chemical Engineering  
PHD, University of Minnesota, 2004

Kravaris, Costas, Professor  
Chemical Engineering  
PHD, California Institute of Technology, 1984

Kuo, Yue, Professor  
Chemical Engineering  
PHD, Columbia University, 1980

Kwon, Joseph, Associate Professor  
Chemical Engineering  
PHD, University of California at Los Angeles, 2015

Lele, Pushkar P, Associate Professor  
Chemical Engineering  
PHD, University of Delaware, Newark, 2010

Linke, Patrick, Professor  
Chemical Engineering  
PHD, University of Manchester Institute of Science and Technology, 2001

Lutkenhaus, Jodie L, Professor  
Chemical Engineering  
PHD, Massachusetts Institute of Technology, 2007

Mashuga, Chad V, Assistant Professor  
Chemical Engineering  
PHD, Michigan Technological University, 1999

Pistikopoulos, Efstratios, Professor  
Chemical Engineering  
PHD, Carnegie Mellon University, 1988

Reeves, Gregory, Associate Professor  
Chemical Engineering  
PHD, Princeton University, 2008

Rodden, John, Professor of the Practice  
Chemical Engineering  
PHD, Texas A&M University, 1988

Rogers, William J, Lecturer  
Chemical Engineering  
PHD, Ohio State University, 1976

Seminario, Jorge M, Professor  
Chemical Engineering  
PHD, Southern Illinois University Carbondale, 1987

Sentmanat, Martin, Professor of the Practice  
Chemical Engineering  
PHD, McGill University, 1995

Sun, Qing, Assistant Professor  
Chemical Engineering  
PHD, University of Delaware, 2010

Tamamis, Phanourios, Assistant Professor  
Chemical Engineering  
PHD, University of Cyprus, 2010

Tseregounis, Spyros, Professor of the Practice  
Chemical Engineering  
PHD, University of California at Los Angeles, 1984

Ugaz, Victor, Professor  
Chemical Engineering  
PHD, Northwestern University, 1999

Vaddiraju, Sreeram, Associate Professor  
Chemical Engineering  
PHD, University of Louisville, 2006

Wang, Qingsheng, Associate Professor  
Chemical Engineering  
PHD, Texas A&M University, 2010

Weatherston, Joshua, Lecturer  
Chemical Engineering  
PHD, Texas A&M University, 2019

White, James D, Senior Lecturer  
Chemical Engineering  
BA, Texas A&M University, 1978

Wilhite, Benjamin A, Associate Professor  
Chemical Engineering  
PHD, University of Notre Dame, 2003

Wu, Hung-Jen, Associate Professor  
Chemical Engineering  
PHD, Texas A&M University, 2006

Zhu, Xuejun, Assistant Professor  
Chemical Engineering  
PHD, University of California, Berkeley, 2017

**Majors**

- Bachelor of Science in Chemical Engineering (http://catalog.tamu.edu/undergraduate/engineering/chemical/bs/)

**Minors**

- Chemical Engineering Minor (http://catalog.tamu.edu/undergraduate/engineering/chemical/minor/)

**Certificates**

- Engineering Therapeutics Manufacturing Certificate (http://catalog.tamu.edu/undergraduate/engineering/chemical/therapeutics-manufacturing-certificate/)
