

CIVIL ENGINEERING - BS, CONSTRUCTION ENGINEERING AND MANAGEMENT TRACK

The Construction Engineering and Management Track to fulfill the BS in Civil Engineering degree emphasizes specialized coursework in the fundamentals of construction engineering and project management. The Track blends the principles of basic science, engineering, and technology with a strong component of business coursework. The Track is appropriate for students interested in a career in the construction industry.

Program Requirements

The freshman year is identical for degrees in aerospace engineering, architectural engineering, civil engineering, computer engineering, computer science, electrical engineering, electronic systems engineering technology, environmental engineering, industrial distribution, industrial engineering, interdisciplinary engineering, manufacturing and mechanical engineering technology, mechanical engineering, multidisciplinary engineering technology, nuclear engineering, ocean engineering, and petroleum engineering (Note: not all programs listed are offered in Qatar). The freshman year is slightly different for chemical engineering, biomedical engineering and materials science and engineering degrees in that students take CHEM 119 or CHEM 107/CHEM 117 and CHEM 120.

Students pursuing degrees in biological and agricultural engineering should refer to the specific curriculum for this major. It is recognized that many students will change the sequence and number of courses taken in any semester. Deviations from the prescribed course sequence, however, should be made with care to ensure that prerequisites for all courses are met.

First Year

Fall		Semester Credit Hours
CHEM 107	General Chemistry for Engineering Students ^{1,4}	3
CHEM 117	General Chemistry for Engineering Students Laboratory ^{1,4}	1
ENGL 103 or ENGL 104	Introduction to Rhetoric and Composition ¹ or Composition and Rhetoric	3
ENGR 102	Engineering Lab I - Computation ¹	2
MATH 151	Engineering Mathematics I ^{1,2}	4
University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ³		3
Semester Credit Hours		16

Spring

ENGR 216/ PHYS 216	Experimental Physics and Engineering Lab II - Mechanics ¹	2
MATH 152	Engineering Mathematics II ¹	4
PHYS 206	Newtonian Mechanics for Engineering and Science ¹	3

University Core Curriculum (<http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/>)³ 3

Select one of the following: 3-4

CHEM 120 Fundamentals of Chemistry II⁴

University Core Curriculum (<http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/>)^{3,5}

Semester Credit Hours	15-16
Total Semester Credit Hours	31-32

- A grade of C or better is required.
- Entering students will be given a math placement exam. Test results will be used in selecting the appropriate starting course which may be at a higher or lower level.
- Of the 21 hours shown as University Core Curriculum electives, 3 must be from creative arts, 3 from social and behavioral sciences (see IDIS curriculum for more information), 3 from language, philosophy and culture (see CVEN, EVEN and PETE curriculum for more information), 6 from American history and 6 from government/political science. The required 3 hours of international and cultural diversity and 3 hours of cultural discourse may be met by courses satisfying the creative arts, social and behavioral sciences, language, philosophy and culture, and American history requirements if they are also on the approved list of international and cultural diversity (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/international-cultural-diversity-requirements/>) courses and cultural discourse (<http://catalog.tamu.edu/undergraduate/general-information/degree-information/cultural-discourse-requirements/>) courses.
- BMEN, CHEN and MSEN require 8 hours of freshman chemistry, which may be satisfied by CHEM 119 or CHEM 107/CHEM 117 and CHEM 120; Credit by Examination (CBE) for CHEM 119 plus CHEM 120; or 8 hours of CBE for CHEM 119 and CHEM 120. BMEN, CHEN and MSEN should take CHEM 120 second semester freshman year. CHEM 120 will substitute for CHEM 107/CHEM 117.
- For BS-PETE, allocate 3 hours to core communications course (ENGL 210, COMM 203, COMM 205, or COMM 243) and/or 3 hours to UCC elective. For BS-MEEN, allocate 3 hours to core communications course (ENGL 203, ENGL 210, or COMM 205) and/or 3 hours to UCC elective.

Second Year

Fall		Semester Credit Hours
CVEN 207	Introduction to the Civil Engineering Profession	2
CVEN 221	Engineering Mechanics: Statics	3
CVEN 250	Introduction to Graphics and Visualization Applications in Civil Engineering Design	2
ENGR 217/ PHYS 217	Experimental Physics and Engineering Lab III - Electricity and Magnetism	2
MATH 251	Engineering Mathematics III	3
PHYS 207	Electricity and Magnetism for Engineering and Science	3
STAT 211	Principles of Statistics I	3
Semester Credit Hours		18

Spring		
CVEN 302	Computer Applications in Engineering and Construction	3
CVEN 303	Civil Engineering Measurement	3
CVEN 305	Mechanics of Materials	3
CVEN 311/ EVEN 311	Fluid Dynamics	3
ENGL 210 or COMM 205	Technical and Business Writing or Communication for Technical Professions	3
MATH 308	Differential Equations	3
Semester Credit Hours		18
Third Year		
Fall		
CVEN 306	Materials Engineering for Civil Engineers	3
CVEN 322	Civil Engineering Systems	3
CVEN 345	Theory of Structures	3
CVEN 363	Engineering Mechanics: Dynamics	3
Technical coursework ⁶		3
Semester Credit Hours		15
Spring		
CVEN 399	Mid-Curriculum Professional Development	0

University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) ³		3
Technical coursework ⁶		6
Semester Credit Hours		15
Total Semester Credit Hours		97

⁶ A total of 32 hours of technical coursework is required. Technical coursework is divided into four categories: science courses, breadth courses, design courses, and focus courses. The total number of hours between breadth, focus and design courses must add up to 29 hours. The choice of courses to be taken in each of the four categories depends on the track chosen and must be made in consultation with the student's advisor and/or the Civil and Environmental Engineering Undergraduate Student Services Office to ensure pre- and co-requisites are satisfied.

⁷ All students must take at least two courses in their major that are designated as writing intensive (W). CVEN 207 and CVEN 424 taken at Texas A&M satisfy this requirement. Other CVEN courses may be approved as W courses at a later date. A grade of C or better is required in these courses.

⁸ Capstone course: Capstone design courses must include more than one civil engineering context.

A grade of C or better is required in all science, mathematics and engineering courses taken to satisfy degree requirements, and all courses in those areas must be taken for a letter grade.

Total Program Hours 128

Construction Engineering and Management Track - Technical Coursework

Technical coursework for the BS in Civil Engineering, Construction Engineering and Management Track is composed of BREADTH courses (12 semester credit hours), DESIGN courses (12 semester credit hours), and FOCUS courses (5 semester credit hours), a SCIENCE course (3 semester credit hours), as delineated below, for a total of 32 semester credit hours. A substitution for any course in the track must be approved in writing by the Civil and Environmental Engineering Undergraduate Student Services Office.

Code	Title	Semester Credit Hours
BREADTH		
CVEN 307	Transportation Engineering	3
CVEN 342	Materials of Construction or CVEN 343 or Portland Cement Concrete Materials for Civil Engineers	3
CVEN 349	Civil Engineering Project Management	3
CVEN 365	Introduction to Geotechnical Engineering	3
DESIGN		
CVEN 405	Construction Management of Field Operations	3
CVEN 444	Structural Concrete Design	3
CVEN 446	Structural Steel Design	3
CVEN 473	Engineering Project Estimating and Planning	3
FOCUS		
Select 5 hours from the following:		5
BAEN 320	Engineering Thermodynamics	
CVEN 315	Sensor Technology for the Built Environment	
CVEN 336	Fluid Dynamics Laboratory	
CVEN 403	Applied Civil Engineering Surveying	
CVEN 450	AutoCAD in Civil Engineering	
CVEN 485	Directed Studies ¹	
CVEN 491	Research ¹	
ECEN 215	Principles of Electrical Engineering	
MEEN 315	Principles of Thermodynamics	

MGMT 309	Survey of Management	
STAT 212	Principles of Statistics II	
SCIENCE		
Select 3 hours from the following:		3
ATMO 201	Weather and Climate	
ATMO 363	Introduction to Atmospheric Chemistry and Air Pollution	
BESC 201	Introduction to Bioenvironmental Sciences	
BIOL 113	Essentials in Biology	
GEOG 203	Planet Earth	
GEOL 104	Physical Geology	
GEOL 320	Geology for Civil Engineers	
GEOS 105	Introduction to Environmental Geoscience	
OCNG 410	Physical Oceanography	
RENR 205	Fundamentals of Ecology	
RENR 345	Park Ecology and Management	
Total Semester Credit Hours		32

¹ Up to 2 hours of CVEN 485 or CVEN 491 may be used.
