

# ENGINEERING CONCEPT, CREATION, AND COMMERCIALIZATION - CERTIFICATE

---

The Engineering Concept, Creation, and Commercialization Certificate provides students with the training and experience to develop their ideas, create/design solutions to solve customer needs, and to understand the process of commercializing developed solutions. The program focuses on developing an entrepreneurial mindset which will be valuable to the students as employees of companies or as creators of their own startup. Students from any engineering major may find great value in the knowledge and skills this certificate develops. The certificate is offered by the Engineering Entrepreneurship Program (<https://engineering.tamu.edu/student-life/eep/>), which offers a range of engagement opportunities to complement in-class learning.

## Program Requirements

Code	Title	Semester Credit Hours
ENGR 262		1
	or ENGR 462 or Engineering Entrepreneurship Hour	
ENGR 461	Engineering Product Lean Launch	3
	Select three of the following: <sup>1</sup>	9
