All electives must be chosen in consultation with, and approved by, the student's academic advisor. Unless courses are specifically listed, see University Core Curriculum at <http://core.tamu.edu/> for a listing of course options for Communication; Mathematics; Life and Physical Sciences; Language, Philosophy and Culture; Creative Arts; American History; Government and Political Sciences; and Social and Behavioral Sciences. The 3-hour University Core Curriculum requirement for International and Cultural Diversity and the 3-hour University Core Curriculum requirement for Cultural Discourse may be met with courses used to satisfy other degree requirements.

Although they may count for university credit, grades from another institution below a C in engineering, mathematics and physics will not be accepted by the TAMUG engineering technology program toward the degree.

¹ Indicates required courses in Marine Engineering major. These courses will be used to compute the major GPA.

² Required to earn a grade of C or better in MATH 151, PHYS 206, PHYS 207, PHYS 226, PHYS 227, MARE 202, MARE 205, MARE 206 and MARE 207. Failure to meet this requirement will prevent the student from continuing any sequence in which the course is a prerequisite. Although they may count for credit, grades from another institution below a C in engineering, mathematics and physics will not be accepted by the TAMUG engineering programs toward the degree.

³ Technical electives may be any course with the following prefixes: MARE (<http://catalog.tamu.edu/undergraduate/course-descriptions/mare/>), MARS (<http://catalog.tamu.edu/undergraduate/course-descriptions/mars/>), MART (<http://catalog.tamu.edu/undergraduate/course-descriptions/mart/>), OCEN (<http://catalog.tamu.edu/undergraduate/course-descriptions/ocen/>), CVEN (<http://catalog.tamu.edu/undergraduate/course-descriptions/cven/>), MATH (<http://catalog.tamu.edu/undergraduate/course-descriptions/math/>), PHYS (<http://catalog.tamu.edu/undergraduate/course-descriptions/phys/>), or OCNG (<http://catalog.tamu.edu/undergraduate/course-descriptions/ocng/>) in consultation with the student's advisor. At least one elective must be at the 300 or 400 level.

⁴ Designated Writing intensive course.

⁵ Students may take any of the 400-level courses (except MARE 402 and MARE 405) offered by the Marine Engineering Department in their senior year including standard courses such as MARE 401 which are offered to license option students.

The total hours may be increased if the student is required to take remedial math, remedial English, computer science, foreign language or if the creative arts; language, philosophy and culture or social science requirements do not fulfill the International and Cultural Diversity requirement.
