results in a total of 150 hours. The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or International and Cultural Diversity courses.

¹ Indicates required courses in the Ocean and Coastal Resources major. These courses will be used to compute the major GPR. Also, if any upper level MARS or OCNG elective courses are taken, they will be used in the major GPR.

² Designated writing intensive course.

³ Field Experience may also be met with MARB 300 plus one credit hour of a field oriented lab course.

⁴ Recommended professional electives include but are not limited to: CHEM 316, CHEM 318, MARA 470, MARB 320, MARB 340, MARB 423, MARB 438, MARB 445, MARS 305, MARS 330, MARS 370/GEOG 370, MARS 410, MARS 415, MARS 432, MARS 435, MARS 440, MARS 484, MARS 485, MARS 491 or MARS 489.

⁵ Credit by exam for MARS 325 and ECON 203 will be awarded after successful completion of MARS 625 and MARA 604, respectively.

⁶ The 36-hour professional track curriculum is structured with 24 hours of required courses and 12 hours of optional elective courses. The required courses include a 1 hour seminar to be taken in the student's first year, 8 hours of management, 3 hours of Geographic Information Systems (GIS), 6 hours of resource economics and statistical methods, and 6 hours of law/policy courses. The student in the professional track will choose electives for the remaining 12 credit hours. See MARM curriculum pages of the graduate catalog for additional requirements for the research track (thesis option) curriculum.

All electives must be chosen in consultation with, and approved by, the student's academic advisor. Unless courses are specifically listed, see University Core Curriculum at <http://core.tamu.edu/> for a listing of course options for Communication; Mathematics; Life and Physical Sciences; Language, Philosophy and Culture; Creative Arts; American History; Government and Political Sciences; and Social and Behavioral Sciences. The 3-hour University Core Curriculum requirement for International and Cultural Diversity may be met with courses used to satisfy other degree requirements. The 3-hour University Core Curriculum requirement for Cultural Discourse may be met with courses used to satisfy other degree requirements.

Students in the 5-year program will take 12 fewer undergraduate credit hours than the other OCRE students. Graduate courses (6 hours) taken in the fourth and fifth year will be counted as credit towards the OCRE degree.

The total undergraduate credit hours prior to enrolling in graduate courses is 98 after the completion of the 3rd year. After the 3rd year, 10 additional undergraduate hours will be taken, 6 additional hours will be obtained by exam hours of two graduate courses, and 6 hours of MARM elective credits will be used for 6 hours of undergraduate elective credits for a total of 120 undergraduate transcript hours. The total graduate credit hours is 36. Substituting 6 hours of MARM electives for one free and one professional elective and applying 6 hours of credit by exam
