

# CLASSICS - BA, CLASSICAL CIVILIZATION TRACK

The BA in Classics is designed to give students a thorough grounding in the culture, history, literature, and intellectual accomplishments of Ancient Greece and Rome from the Bronze Age to the dawn of the Middle Ages.

Studying the history and literature of these civilizations will not only help students to develop skills in close reading, writing, and critical thinking, but will also help them to see how fundamental concepts of Western Civilization such as rationalism and democracy first arose in Classical Antiquity.

The Classical Civilization track focuses on the history, beliefs, and material culture of ancient Greek and Roman civilization. It consists of 4 hours of foundational courses and 27 hours of electives, which include courses in archaeology, ancient history, and philosophy. Students can fulfill the foreign language requirement by studying a classical or modern language.

A major in Classics signals a commitment to serious intellectual inquiry and is an excellent basis for careers in law, business, consulting, public service, and teaching. Those intending to pursue careers in medicine or finance will also find that a major in Classics can be easily combined with undergraduate courses required for those fields.
