

SOCIOLOGY - BA

A Bachelor of Arts in Sociology provides a solid foundation in the knowledge and skills needed to address real-world social issues and problems, while allowing students to explore a wide range of social topics and issues. Some courses include hands-on service-learning opportunities in which students connect service and/or research in the community with course material. For sociology majors seeking to enter applied fields, we have a highly praised internship program that offers practical experience in community nonprofit organizations, government agencies, and businesses. To further complement our courses, students accepted into our honors program have opportunities to work one-on-one with professors engaged in sociological research.

The BA provides an excellent background for students aspiring to attend graduate school or enter a career in nonprofit community services or social work, health care and nursing, law or law enforcement, education, public policy, organizational management and entrepreneurialism, marketing, human resources, and/or journalism.
