## NURSING - BSN, TRADITIONAL BSN

The traditional BSN track requires the successful completion of prerequisite coursework prior to beginning upper-division courses.

Academic advisors will be able to advise students regarding equivalencies to common course numbers. Information is also available regarding courses at www.tccns.org (http://www.tccns.org/) and through the Texas A&M Transfer Course Equivalency.

Applicants with a previous bachelor's degree may apply to either the traditional BSN track or the second-degree BSN track (offered in Round Rock, TX) and must follow the same requirements as noted above.

# **Entry to the Traditional Bachelor of Science in Nursing**

Admission to the School of Nursing professional program is competitive.

Admission decisions are based on:

- · The strength of the student's academic background,
- Minimum grade of C in each prerequisite course and a recommended Minimum cumulative grade point average of 3.0 (on a 4.0 scale)
- A completed NursingCAS application (submit only 1 per admission cycle)
- HESI A2 score minimum score of 75% in each required section
- Timed verbal and written assessments of the student's attributes and experiences, to include community service, leadership, work experience, and activities in health care
- · Academic history of limited repeats, withdraws, or failures.

#### **Internal Transfer Applicants**

An#Internal Transfer Applicant#is a current Texas A&M University undergraduate in a non-nursing major who meets specific requirements to apply to the upper division course sequence in Nursing. Meeting requirements does not guarantee admission but allows a student the opportunity to apply for entry to the nursing program.

Students must submit the application no later than the published deadline in the term in which they are applying. #Note: All academic information included on the application must be posted to and appear in a student's official record at Texas A&M.

#### **External Transfer Applicants**

A limited number of External Transfer Applicants from colleges and universities outside of Texas A&M University will be admitted.

Current Texas A&M University students who will earn a bachelor's degree prior to the start date should also follow this process. Applicants should submit only one NursingCAS application per admission cycle.

Students participating in the Program for Transfer Admission (PTA) must follow the external transfer process foundhere.

Core Curriculum courses are listed on the University Core Curriculum (http://catalog.tamu.edu/undergraduate/general-information/university-core-curriculum/) page. STAT 201 is recommended to fulfill 3 hours of Mathematics, but is not required.

Texas common courses BIOL 2401 and 2402 taken at any Texas accredited public institution will meet the requirement for BIOL 319 and BIOL 320.

BSN students must make a minimum grade of C in all courses.

#### **Foreign Language**

Proficiency in a foreign language is required. Can be met by taking two years of the same language in high school or college credit.

### **Prerequisite Courses**

Prerequisites may be planned or in progress during the application cycle, but must be completed with a grade of C or better before the program start date. The courses may be completed at any regionally accredited college or university.

<sup>&</sup>lt;sup>2</sup> Indicates Nursing Science course.

These courses may be taken at a community college, but must be completed by the first day at the School of Nursing. Students may elect to place these courses anywhere in their schedule, though it is encouraged that these be completed over the summer.
