

PUBLIC HEALTH - 5-YEAR BACHELOR OF SCIENCE AND MASTER OF PUBLIC HEALTH IN HEALTH PROMOTION AND COMMUNITY HEALTH SCIENCES

The 3+2 Bachelor of Science in Public Health and Masters in Public Health in Health Promotion program is more than a means to produce next-level Public Health practitioners. It will deliver a graduate who can not only immediately impact the field of Public Health, but also deliver someone with a well-rounded understanding of the role that Public Health plays in medicine, nursing, allied health or other health professions.

The undergraduate component of the 3+2 program is based on a philosophy of health promotion and disease prevention, to improve the quality of life of individuals, families and communities. The graduate MPH component is a non-thesis degree program with culminating experiences as part of the degree requirements. Students will participate in a practicum demonstrating overall public health problem solving skills and complete a rigorous capstone class.

Program Requirements

The following is a suggested schedule that includes the required courses for the combined BS/MPH in Public Health-Health Promotion & Community Health Sciences. It is recognized that many students will change the sequence and number of courses taken in any semester. Deviations from the prescribed course sequence, however, should be made with care to ensure that prerequisites for all courses are met.

¹ Chosen in consultation with BSPH academic advisor. Select from any 100-499 course.

² These 15 hours will be used towards both the BS and MPH degree in Public Health.

³ Elective Options: courses from HPCH or other SPH departments may be taken. For courses outside SPH, please get approval from the department advisor.

The program includes a total of 165 hours which up to 15 hours may be applied toward both the Bachelor of Science in Public Health and the Master of Public Health in Health Promotion & Community Health Sciences.

Approval of degree plan does not guarantee access to courses. Students must satisfy prerequisites, and some courses (writing intensive classes included) are available to majors only. It is the responsibility of the student to ascertain whether there are any restrictions or prerequisites for courses in their degree plan.
